

RIGID CORE

*At Karndean we
see flooring differently...*

We travel the world in our quest to bring you exceptional floors that inspire and delight. From the ancient forests of Europe, to the remote Australian outback and beyond, we seek out expressive and intriguing forms in the natural world to influence our unique floor designs.

By combining these original features with cutting edge design, we create simply beautiful floors you'll love for a lifetime.

Why choose *rigid core?*

Our rigid core ranges offer quick and easy installation and excellent acoustic benefits. They can be installed over most existing hard surface floors or uneven floors without the worry of exposing any imperfections underfoot, thanks to our innovative K-Core® technology. Our rigid core products also feature a patented click-locking mechanism and pre-attached acoustic foam backing for quick and easy installation.

Choose rigid core when....

...you want superior acoustics

 Thanks to our patented K-Core® technology and pre-attached acoustic backing, the sound transfer to rooms below is reduced by as much as 21dB. The perfect option for upstairs rooms, flats, or apartments.

...you have a damp subfloor

 Our rigid core ranges are suitable for fitting over damp subfloors found in some new build homes and newly built extensions reducing the time spent waiting for the floors to dry.

...you want to install over an existing floor

 Our rigid core ranges can be laid over most existing hard floors, therefore preserving them, perfect for renovating rented or listed buildings.

 Due to the innovative K-Core® layer, our rigid core designs can be laid directly over most existing hard floors without the need for extensive subfloor preparation.

...you want a quick installation

 Minimise upheaval with reduced subfloor preparation and fit a new floor in less time with a patented click-locking mechanism; making our rigid core designs up to 30% quicker to install than other floor types.

Where the *magic happens...*

Rigid core construction

1. K-Guard+® Surface Protection

Our K-Guard+® surface protection system uses PU technology to provide a hygienic and durable finish.

2. Clear PVC Embossed Wear Layer

Provides superior protection from everyday wear and tear.

3. High Definition Photographic Layer

Showcasing the unique design of each Karndean product; handcrafted for one of a kind beautiful floors.

4. Stability Layer

This layer assists with dimensional stability and aids indentation resistance and recovery.

5. K-Core®

Our proprietary K-Core® technology ensures a stronger, more stable core for installation over most existing hard floors without the worry of exposing subfloor imperfections, and it's 100% waterproof.

6. 2G™ & 5G® Locking Mechanisms

Using proven click-lock technology, installers can quickly and easily lock planks together.

7. Acoustic Backing

Our pre-attached acoustic foam backing makes rigid core products quieter to walk on than laminate or engineered hard floors, and reduces sound transfer to rooms below.

Easy to clean

Easy to clean with a sweep and mop, doesn't require sanding, varnishing or staining.

100% waterproof

All Karndean floors are 100% waterproof, and won't swell, crack, or warp when wet.

To guard
and protect

High heels. New furniture. Family pets. Our floors go through a lot. But thanks to our K-Guard+® surface protection, Karndean floors don't show it. This commercial-grade durability works as a barrier against scuffs, stains, and scratches.

■ Lime Washed Oak SCB-KP99-6

K-Guard+®

Our K-Guard+® surface protection system uses polyurethane technology to provide a hygienic and durable finish and has a history of premium performance.

Comfortable underfoot

Our floors are softer underfoot than other hard surface floors, offering children a safe and comfortable space to play and parents an easy-to-clean surface.

Texture

brought to life

From smooth finishes, to tactile textures, to registered embosses that take in each individual knot and grain, every Karndean product comes with a beautiful emboss that enhances the final design.

■ Warm Brushed Oak VGW121T-RKP

Wear Layer

Each design has a realistic surface texture and provides superior protection from everyday wear and tear, ideal for busy environments.

Inspired *by nature*

Our designers spend years perfecting our products, drawing inspiration from the intricacies of nature for our signature realistic wood and stone finishes. And with practical benefits designed to suit every lifestyle for years to come, Karndean flooring is even better than the real thing.

Realistic wood and stone designs

Inspired by nature, our products are designed in-house and realistically replicate the look and feel of real wood and stone materials.

Photographic Layer

Showcasing the unique design of each Karndean product; handcrafted for authentic, beautiful floors.

ON STABLE GROUND

With the added stability layer, our rigid core products resist indentation and withstand everything life throws at them.

Durable

Karndean Designflooring gives you the look and feel of natural products with the durability and resilience of luxury vinyl.

Resists indentation

All Karndean floors stand up to the impact of day to day life.

Stability Layer

This layer assists with dimensional stability and aids indentation resistance and recovery.

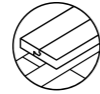

Strength *at its core*

Due to the innovative K-Core® layer, our rigid core designs can be laid directly over most existing hard floors without the need for extensive subfloor preparation, therefore preserving them, perfect for renovating rented or listed buildings.

Quick and easy to install

Our rigid core designs are up to 30% quicker to install than other floor types.

Minimal disruption

Can be installed over most existing hard floors, minimising disruption.

Click-locking mechanism

Quicker to install than other products, thanks to our innovative click-locking system, with no adhesive needed.

* With the exception of laminate which is normally recommended to be uplifted.

** Existing floorboards need to be firmly fastened, gaps filled and level to install rigid core.

Subfloor
imperfections

Existing
hard floor*

Existing
floorboards**

K-Core®

Our proprietary K-Core® technology ensures a stronger, more stable core for installation over most existing hard floors without the worry of exposing subfloor imperfections, and it's 100% waterproof.

SILENCE IS GOLDEN

Reduces sound transfer

Reduces sound transfer to rooms below. The perfect option for upstairs rooms, flats, or apartments.

Knight Tile: **19dB**
Van Gogh: **19/21dB**

Acoustic backing

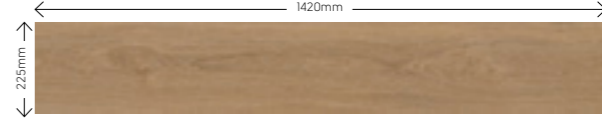

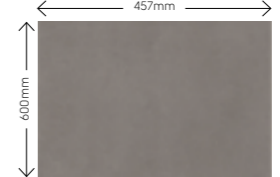

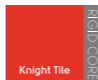

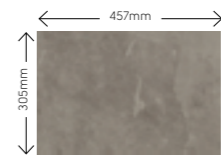

Our pre-attached premium acoustic foam backing makes our products quieter to walk on than laminate or engineered hard floors, and reduces sound transfer to rooms below.

The sound from kids' bedrooms, play rooms and loft conversions is reduced by as much as 21dB thanks to our pre-attached acoustic backing. This unique sound-absorbing construction also helps reduce impact noise within a room. Compared to laminate or stone floors, our rigid core products are exceptionally quiet and the perfect choice for busy family homes.

Our rigid core ranges

Featuring the style and character of natural wood and stone flooring but with all the added advantages of rigid core luxury vinyl, a Karndean floor is durable enough to stand up to the daily demands of busy modern life. Find your perfect style and colour from our Van Gogh or Knight Tile ranges.

Clean & contemporary

Taking inspiration from many wood species and natural stones found around the world, our Van Gogh range offers a wide range of designs to choose from. From the cool tones of Frosted Stone, to dark hues of Salvaged Barnwood, there is sure to be a colourway to suit all styles of interiors.

This collection is ideal for home decorators looking to create stylish interiors with a sense of flow over different subfloor conditions, including uneven or drying floors or where sound transmission from rooms above is a consideration.

Our Inspiration

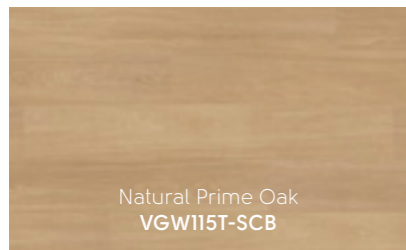

Our product designers selected these European oak boards for their mix of flowery and straight grain boards. Our brushed oak designs have been made up from a hand-selected combination of these boards, which were then brushed to highlight the interesting grain pattern.

The final colours of our Grey Brushed Oak, Warm Brushed Oak and Golden Brushed Oak were created using a mix of hardwax oils and offer a perfect backdrop for any room.

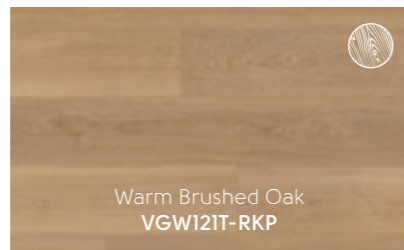

The subtle texture of the original planks has been highlighted with our new natural wood grain emboss adding a subtle layer of detail to the individuality of this product. Look out for our natural wood grain icon to see which of our designs benefit from this natural finish.

Our Inspiration

The striking planks of English Character Oak and Antique French Oak are full of intricate grain detail and charm, both featuring designs oozing in personality. Dating back to the 17th Century, the natural beauty of the floor that inspired Antique French Oak, was so striking we decided to keep our design as close to the original as possible.

Salvaged Barnwood
SM-VGW123T-RKP

Our Inspiration

The marvellous rusticity and rotary saw markings of this salvaged American timber create an unmistakably unique floor with unlimited potential. The heavy tonal shifts within this product, created by an elongated period of dehydration, have been enhanced by layers of natural, hand-applied finishing oils. These oils strengthen the underlying brunette tones that allow the vibrancy of the sawn features to become more pronounced. The final bright sandy colours, deep browns, blue hues and dark greys beautifully illuminate these expressive grain structures in high definition.

Our Inspiration

Our product designers selected a batch of limestone to work with, putting the stone through an etching process to create a bleached effect which exposed the raw colour of the underlying material. Reflecting the natural beauty of the golden limestone found in the Cotswolds, this warm, traditional-style flooring works equally well in modern interiors as it does period properties due to its minimalistic design.

Design tip

Our rigid core ranges can be laid over most existing hard floors, therefore preserving them, perfect for renovating rented or listed buildings.

White Painted Oak SCB-KP105-6

Our Inspiration

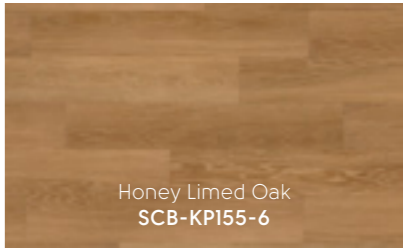

Our designers sourced these beautiful planks from Amsterdam, Holland where they found them recovered from an old wind-powered sawmill.

These characterful boards had been smoked which highlighted the visible knots and strong grain detail. The variation in tone, grain and burnished black knots add to the character of these planks, the colour variation gives options for a variety of interior spaces.

This characterful oak design is available in two colourways, Washed and Traditional in a 36" x 6" plank.

Ivory Riven Slate
SCB-ST18-18

Our Inspiration

Found in the Apuan Mountains in Italy, Calacatta and Carrara marble are currently a dominant style in stone and interior finishes.

Typically having a neutral, broken veining and a bright look, both offer an impressive and distinctive style which can be adapted to both classic and contemporary interiors.

Our product designers have taken their inspiration from these ancient roman quarries to create our Frosted Marble design available in a 12" x 18" tile.

Grey Riven Slate
SCB-ST16-18

Our Inspiration

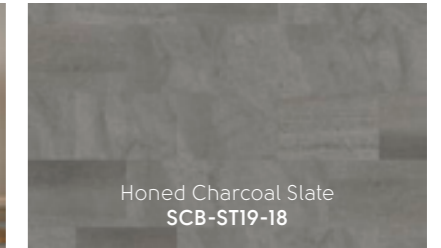

The original source material for this design came from volcanic rock, dating back 300 million years. Sourced from quarries located in the heart of England's Lake District, our design team have taken inspiration from the characterful details of the linear markings and fractured features to create the riven slate design. Demonstrating the beautiful natural textures of this raw material, use riven slate to introduce dark and sultry tones to your home to create an air of sophistication to any interior.

Accessories

Add the finishing touch to your rigid core floor by adding one of our colour matched scotias or white skirting boards around the edge of your room.

Cover the expansion gap between your floor and wall to give a seamless finish with a scotia simply fitted against your skirting board, or place our white skirting boards over the top of your floor, attaching it to the wall.

Our scotias measure 17.3mm x 17.3mm, 2.4m length.

Find your local retailer

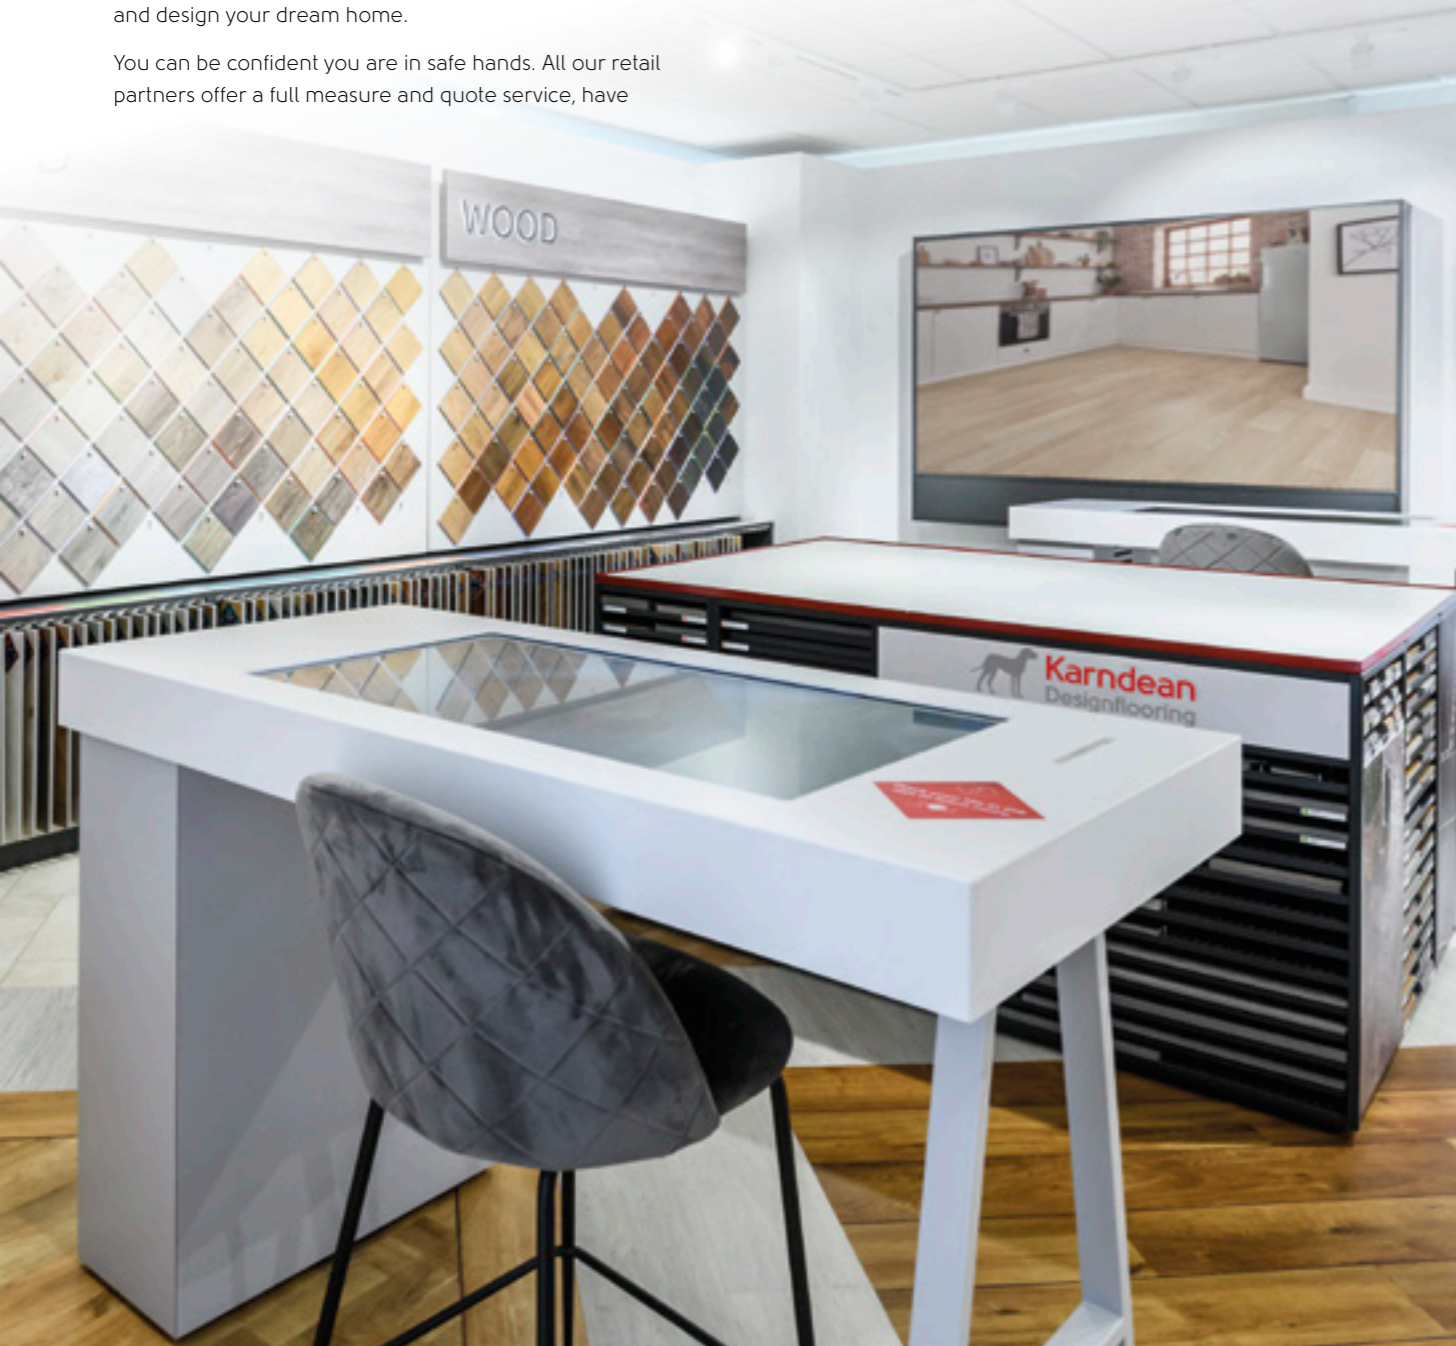

Our extensive network of independent retail partners are on hand to help you choose a simply beautiful floor that you'll love for a lifetime.

Knowledgeable and fully trained, our retail partners offer an environment where you can explore our rigid core flooring and design your dream home.

You can be confident you are in safe hands. All our retail partners offer a full measure and quote service, have

professional floor fitters who have been trained and have many years' experience in installing Karndean and can provide advice on cleaning and caring for your new floor.

Visit our website to find out if you can view our rigid core collection at your local retailer: www.karndean.com/FAR

Visit our showroom

Our showroom is open by appointment only in order to provide all visitors with the best possible service and personal experience. An appointment can be made to meet with one of our design consultants or to simply browse our rigid core collection. If you live further away and it's too far to travel, we also offer remote design consultations with our experts over the phone or via video call. During your visit we will discuss your project and we will be able to give you advice on everything from subfloor requirements and product design to aftercare.

Here's what you can expect:

- Introduction to our full collection of rigid core wood and stone designs with a personal guided tour.
- Explore your ideas and practical needs with your dedicated design consultant.
- Up to six free full-size samples to take home and we'll put you in touch with a retail partner.

How to book:

Simply call our showroom direct on **01386 820182** or visit www.karndean.com/showroom

Karndean Showroom

Colour and Pattern Reproduction

We are careful to make sure our brochures are accurate and printed to very high standards, but photography and printing cannot always create a perfect representation of our products. For this reason we strongly recommend that you look at a sample of any product you are considering before placing your order.

All of our products are inspired by things we have seen in the natural world. Just as variation in colour and detail is part of the unique beauty of natural materials, it is also a feature of many of our designs. This means that with some of our products you will see natural variation when your floor is laid.
