Petro Round Ø36cm Concrete Vessel Basin - Onyx Black

Petro Round Ø36cm Concrete Vessel Basin - Alabaster White

# WASHBASINS

Beautifully designed and manufactured with quality craftsmanship, these basins offer a stunning addition to the bathroom space. With a range of styles available to complement a variety of countertop finishes, each range offers elegance and practicality in equal measure.

**Petro** Rectangular 40cm Concrete Vessel Basin - Alabaster White

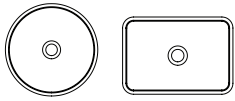

**Petro** Rectangular 40cm Concrete Vessel Basin - Onyx Black

# PETRO

concrete vessel basins

The **Petro** vessel basin offers a sophisticated touch with its sleek stone effect texture. Available in Alabaster White and Onyx Black, this basin comes in both round and rectangular shapes to fit your design preferences. Its modern stone effect adds a refined element to your space, mixing the raw features of stone with modern design, hinting towards the popular wabi sabi trend, offering both contemporary elegance and durability.

## Key features

Stone effect design available in Alabaster White and Onyx Black.

Alabaster White has a fully painted nano coat finish emulating the appearance of natural light stone.

Round and Rectangular shapes available.

The Petro vessel basin has no overflow and requires a free-flowing waste.

# TERRA

mineral marble vessel basins

Beautifully tactile and highly durable, the **Terra** basins are manufactured from mineral marble, which has been developed using dolomite stone and resin. Each basin is textured and finished to match perfectly with our **Terra** Countertops to create a look which is seamless, practical and also antibacterial. Choose from four finishes, White Chalk, Grey Fossil, Beige Clay and Black Charcoal.

Colour swatches are available from [hib.co.uk](http://hib.co.uk)

## Key features

Extra White matt finish on the inside of the basin.

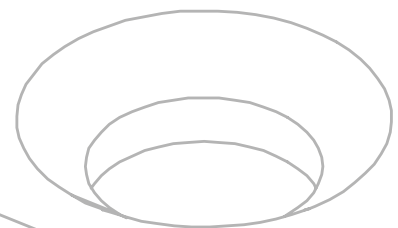

Textured finish on the outside while smooth white finish inside keeps the basin easy to clean.

Matching countertops with complementing textures are available.

Available in two sizes.

Mineral Marble has antibacterial properties aiding hygiene.

The Terra vessel basins have no overflow and requires a free-flowing waste.

Terra Beige Clay Mineral Marble Basin with Atlas Wall Mounted Brushed Brass Mixer (page 66)

---

"Our design inspiration and ethos for the **Terra** basin stemmed from the beauty of nature, reflected in its earthy colours and textures. Our finish choices, combined with the tactile surface really conjure the feeling of stone and by utilising mineral marble, we've been able to not only enhance the durability of the basin but also reinforce our commitment to sustainability thanks to its robustness as a material."

- Jasmine Rowe, Product Designer

# DEXTER

mineral marble vessel basins

The **Dexter** basin is manufactured using mineral marble, with an Extra White matt finish on the inside of the basin. The mineral marble material has antibacterial properties aiding hygiene and the basin can also be repaired.

**Dexter** features overflow and taphole.

The **Dexter** Platform features an additional useful shelf space for essentials such as soap.

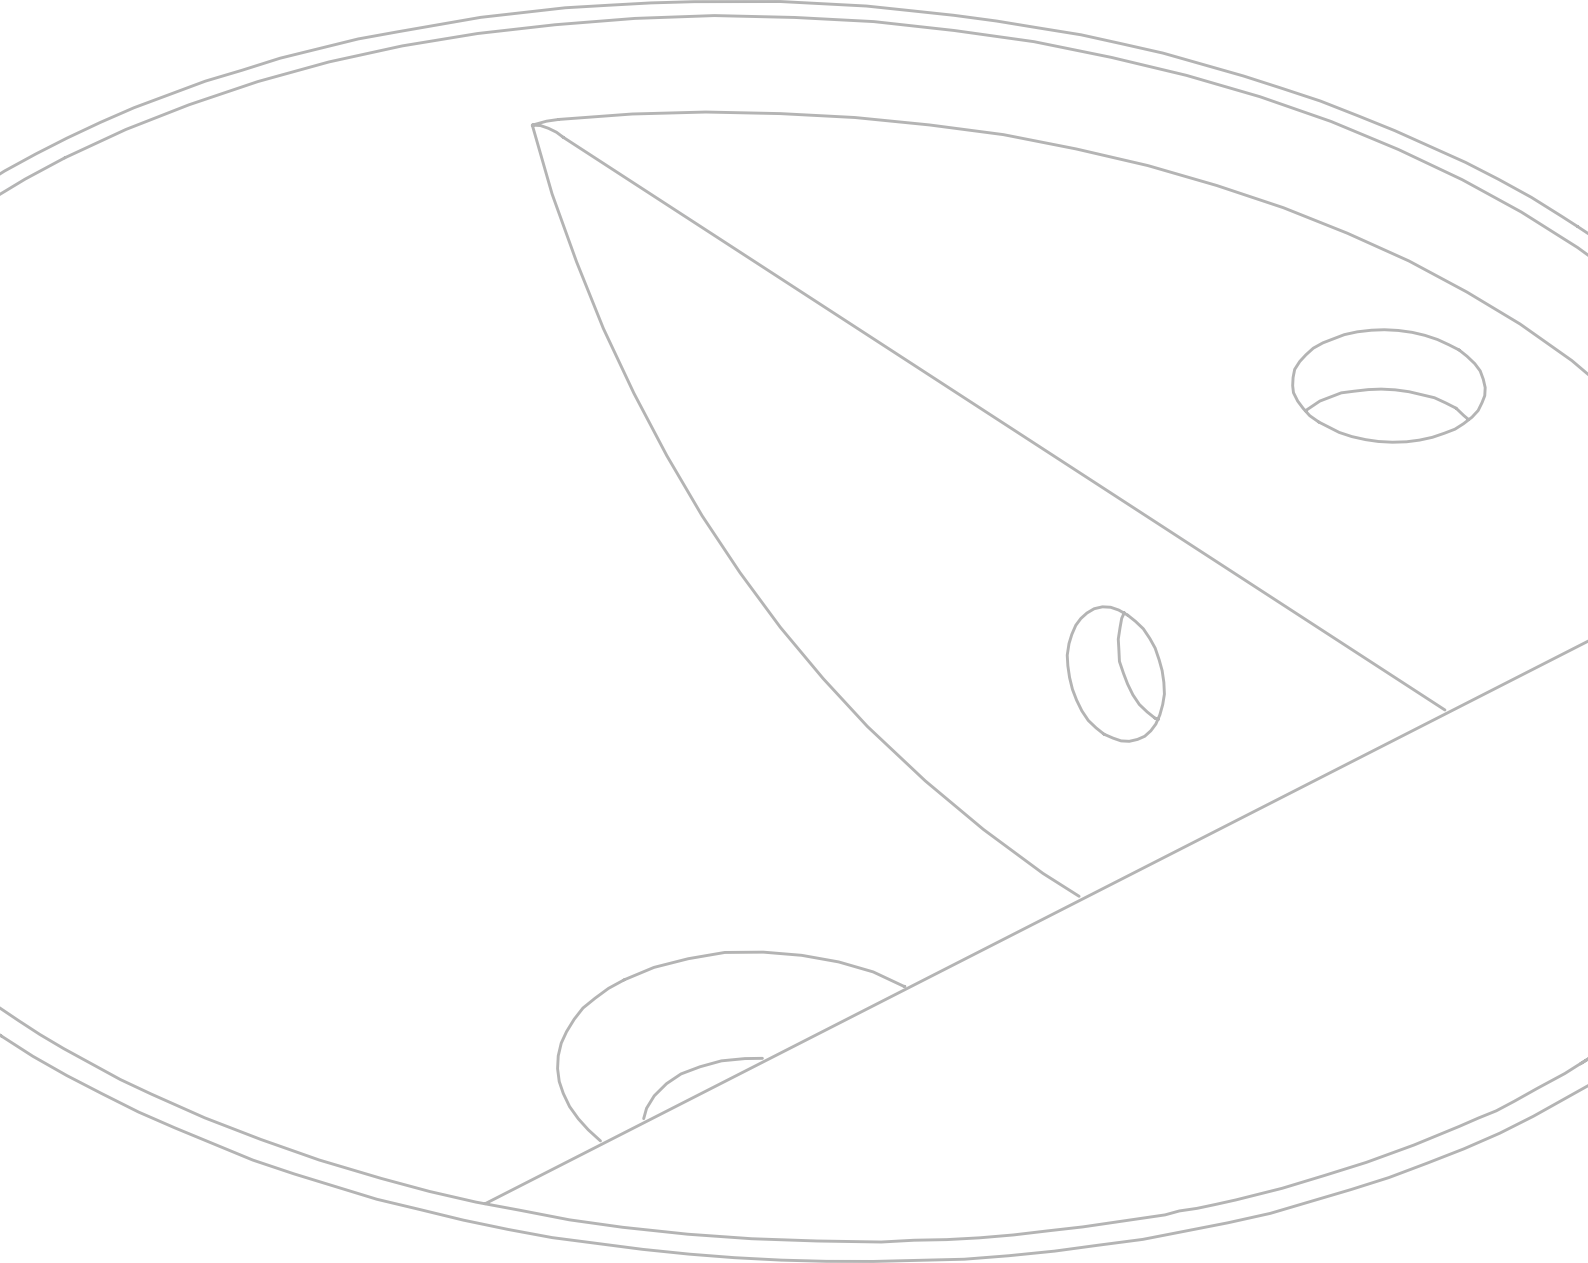

## Key features

Extra White matt finish.

Features overflow and taphole.

Mineral Marble has antibacterial properties aiding hygiene.

## FUNCTIONALITY AT THE CENTRE...

"Our aim with the **Dexter** basin was to marry practicality with elegance. Driven by valuable feedback from our customers, we found a solution which incorporates a set down space for essentials, integrated tap hole and overflow. This is a vessel basin that not only simplifies cleaning but also enhances the user experience."

£349

## COLD START

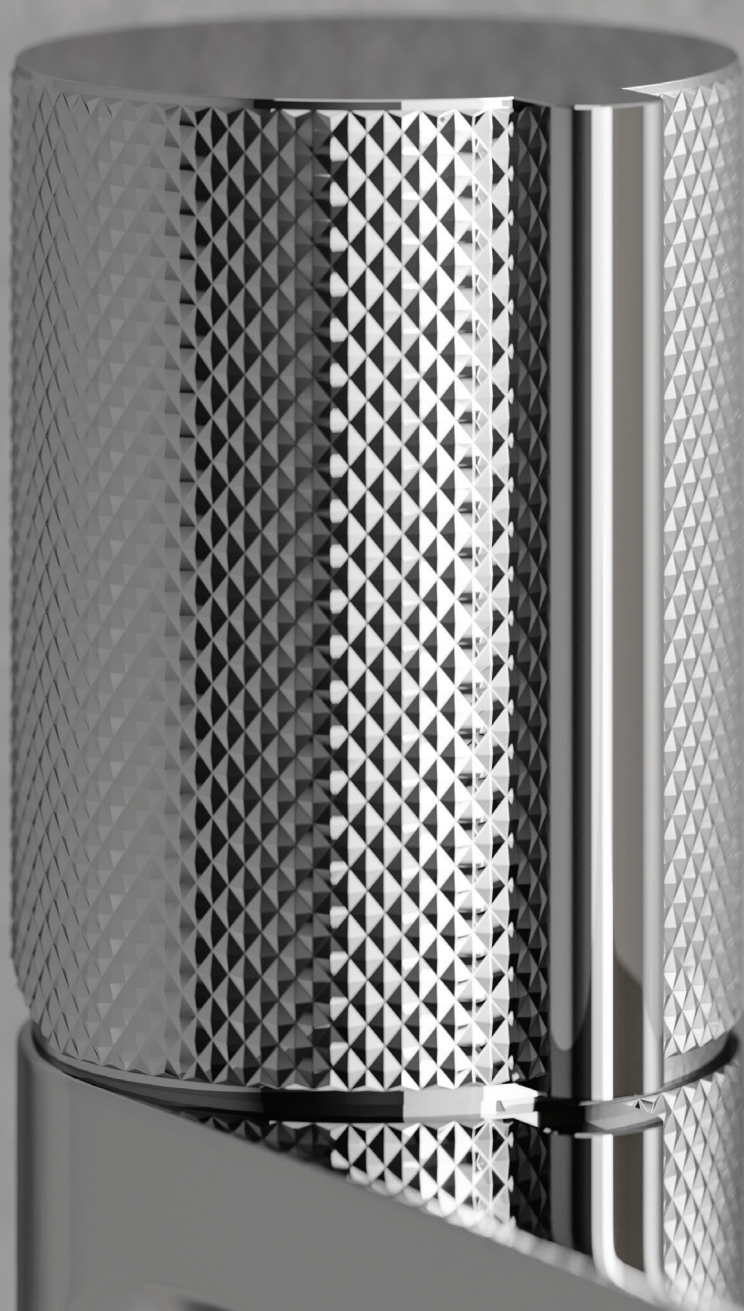

Cold Start is a practical, energy saving feature that is incorporated into selected **Atlas** brassware ranges, making a leap in tap functionality.

**HiB's Atlas Mono** and **Atlas Tall Mono** mixers feature a full Cold Start position. When the tap is turned on, it serves cold water as standard. By turning the handle to the left, hot water can then be selected. This means that the boiler is only engaged when you need it, reducing energy and costs.

**Atlas** is WRAS approved. WRAS approval indicates that **Atlas** has been thoroughly tested to demonstrate it is of a suitable quality and standard against the requirements of the Water Fittings Regulations and Scottish Byelaws.

# DURER brassware

The **Durer** brassware range exudes sophistication with its distinctive knurled handle, providing a luxurious tactile experience that adds a touch of opulence to any bathroom. Available in three finishes of Chrome, Black, and Brushed Brass, **Durer** offers a versatile selection to effortlessly complement various design styles.

## IMPORTANT NOTES

HiB recommends that products are installed by fitters who are able to meet the level of competence required in order to comply with relevant regulations.

Some of the images presented in this brochure are CGI generated so may not reflect colours and textures exactly.

We recommend ordering a free colour swatch from our website: [hib.co.uk](http://hib.co.uk).

All sizes and measurements are approximate, but we do try and make sure they are as accurate as possible and within acceptable tolerances. In the interest of continuous product development, HiB reserves the right to alter specifications as necessary.

Our products are constructed from a range of materials that are variable in nature. Paint and printed finishes may be subject to batch variation.

In the event of any issues, we stock a comprehensive range of spares and will endeavour to use this service in the first instance.

Repair kits for Mineral Marble Basins are available.

# CONCRETE – A BUYER'S GUIDE

Concrete is a unique, timeless material that offers a blend of versatility, durability, and natural aesthetics. Our concrete basin collection has been designed to bring these qualities into your home, providing a beautifully luxurious addition to any bathroom setting.

---

## Unique Aesthetic

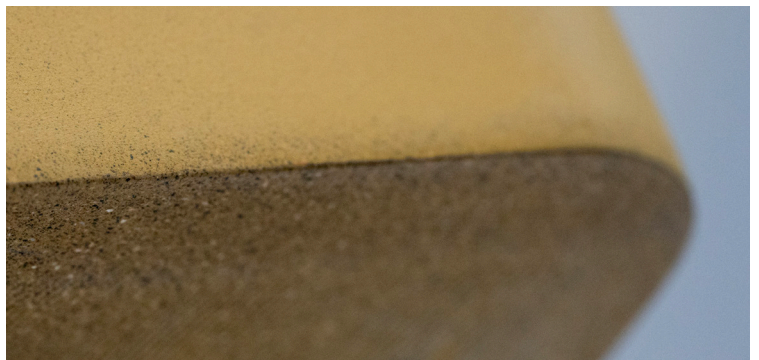

Each basin is handcrafted with distinctive organic characteristics. The inimitable variations in tone and texture create a patina that is integral to the character of concrete, which will become more pronounced with age and means your basin will be completely unique to you.

---

## Natural Characteristics

Our concrete basins are made with specially selected sand and stone, which creates a naturally textured surface and showcases the unique aesthetic of exposed aggregate. Natural material variations are part of the distinctive characteristics of concrete and ensure your product is timeless.

## Durable Strength

Designed for longevity, our concrete collection features a high-technology nano-coating finish treatment. This advanced coating helps to prevent water, oil and dirt from penetrating the surface, providing protection and added durability.

## Tender-Loving Care

Our concrete products feature three layers of protective coating, providing waterproofing and scratch resistance which makes your basin easy to clean and maintain. To enhance the protective barrier, periodically use natural polishing wax, which will maintain the unique aesthetics.

Learn more about the unique characteristics of concrete at [www.hib.co.uk](http://www.hib.co.uk)
