

HIB

MAKING
BATHROOMS
BEAUTIFUL

Mirrors | Cabinets | Accessories | Lighting | Ventilation

“To be the leading supplier of innovative, creative solutions which make bathrooms beautiful, whilst making a substantial difference to the lives of our people, partners and the world we live in.”

HiB's Vision

At HiB, we've been making a difference to bathrooms for more than 30 years. From the very beginning of our journey, we have been dedicated to providing products which not only catch the eye, but also break new ground. From Bluetooth® capability to USB integration, our range has come a long way since 1990, but our commitment to making bathrooms beautiful has never changed.

How HiB makes the difference...

At HiB, we are dedicated to designing your ideal bathroom and helping you create a sanctuary in your home that excites and delights you every day.

With more than 30 years' experience, we are renowned for our innovation, peerless quality and, above all else, our commitment to revolutionising bathroom design. Your bathroom could benefit from the latest innovations, such as heated pads to help keep your mirror clear, LED colour temperature changing technology and even Bluetooth®-enabled cabinets — all in a style that suits your personal taste.

Whether you're looking for classic contemporary or want an industrial edge for your bathroom, you'll find your style with HiB.

Platform 60 - page 32

Creating your beautiful bathroom...

Creating a beautiful bathroom is all in the planning.

When designing your bathroom, consider which elements will bring the space to life and work from there. In our experience, a beautiful mirror or a cutting-edge cabinet adds a focal point that transforms and enhances the room.

Find your perfect lighting with colour temperature changing illumination...

Warm White - 2700K

For a soft, soothing glow, opt for Warm White. The mellow tones of this setting create a sense of calm for gentle relaxation. Perfect for unwinding in the bath or for your pre-bed routine.

Natural White - 4000K

Natural White is the best representation of natural daylight, for a truer, more accurate reflection. This neutral shade is ideal for tasks where precision is required, such as shaving, shaping your eyebrows and applying make-up.

Cool White - 6000K

The fresh, bright hue of Cool White is designed to invigorate and energise you. It's the perfect colour temperature for your morning routine, helping you wake up and prepare yourself for the day ahead.

Air 50 - Cool White - page 24

Find your mirror

Your mirror is – quite literally – a reflection of you and your style aspirations. The right mirror can create the illusion of space, enhance your lighting scheme and deliver the look you want for your bathroom.

Everyone has a different idea of what makes the perfect bathroom. That's why each HiB mirror has its own distinctive features — so you're sure to find one that suits your aesthetic and meets your specific needs. Whether you can't live without your playlist, like your lighting 'just so', or always have a device to charge — we have a mirror for you.

Maxim Mirrors

Sleek channels of LED illumination, enhanced by impressive height, **Maxim** is a refined and sophisticated bathroom mirror that commands attention. Composed of three panels of mirror glass reaching up to 90cm in height, with precision illumination featuring colour temperature changing technology, **Maxim** is perfectly poised for bathroom prominence.

[See page 129 for technical details.](#)

Solstice Mirrors

For a designer look that works in a classic or contemporary setting, consider **Solstice**. This statement mirror is available in two finishes, an industrial matt black and brushed brass and includes a feature hanging strap. The bold style is complemented by a halo of ambient backlight and a ring of colour temperature changing LED lighting, which offers customisable frontal illumination. Internal heated pads help to reduce the condensation on the glass, for a flawless and functional bathroom centrepiece.

Solas Mirrors

Solas offers light blending and colour temperature changing technology for a level of illumination that is second to none. The mirror features a circle of LED light, which is offset from the surface of the mirror. This provides optimal facial illumination, comparable with the make-up mirrors used by professional stylists. Find the perfect hue for precision tasks, such as shaving or applying make-up — or choose a shade that complements your interior design.

The circular LED light frame is available in chrome or brushed brass with mirrored sides, or in a cutting-edge industrial black. **Solas** can be hung landscape or portrait to suit your bathroom.

Frontier Mirrors

The ideal selection for design connoisseurs, **Frontier** is a masterpiece of light and shade. A circular central mirror is bordered by a band of intense light, tempered perfectly by a dramatic background of smoked grey glass. This provides perfect radiance with minimal glare. Ambient backlight adds a further layer to the look, casting a soft glow onto the surrounding walls.

The look is softened with rounded corners and bevelled edges. **Frontier's** discreet touch controls allow you to adjust the brightness and colour temperature of the light to suit your décor and mood.

Duplus Mirrors

Duplus combines hints of classic Georgian architecture with the sophistication of modern interior design. Vertical pillars of LED light are artfully paired with softer, backlit horizontal lines. This draws the eye upward, adding height to the room. Duplus features an in-built two-pin charging socket, for your convenience. Its timeless, geometric angles create a mirror that is equally at home in a classic or contemporary bathroom.

Cirque and Libra

LED Magnifying Mirrors

Unlike anything else on the market, **Cirque** features clean defined lines, 5x magnification and innovative soft-glow LED illumination. The light is activated by a touch switch that, when held down, cycles through a spectrum of cool and warm white hues.

The perfect partner for delicate tasks such as eyebrow plucking or precision shaving, this unique design brings the boutique hotel to your bathroom.

The **Libra** mirror has 3x magnification, illuminates when you pull it towards you and turns off when you fold it away.

Find your cabinet

Your new bathroom will benefit from beautifully designed cabinets that look and feel luxurious, while offering practical storage and technological features.

Your cabinet will provide ample storage for all your small bathroom essentials, to keep your surfaces clear and clutter-free.

Some cabinets also incorporate built-in technology, such as charging sockets, pioneering demisting technology, clever adjustable lighting and even Bluetooth® connectivity.

Scan for videos and further information on our cabinet ranges.

Dimension Cabinets

Bluetooth® connectivity brings music to your bathroom

A design statement that is striking when viewed from any angle, **Dimension's** bold lines of illumination can be enjoyed from the front, sides and even from within the cabinet, creating a stunning focal point that is sure to impress. But it's not just its exterior that makes **Dimension** different. Featuring Bluetooth® connectivity and integrated speakers, **Dimension** allows you to listen to much-loved music playlists, podcasts and audio books with ease.

Verve Cabinets

Verve blends substance and style to create a beautiful bathroom centrepiece. The clean, classic design has mirrored doors that are softly illuminated by LED borders on three sides. The floating glass shelf is lit from above, providing a platform to display your favourite accessories or store everyday essentials. Inside, the cabinet is filled with bathroom technology comprising of an integral wireless phone charger, a two-pin charging socket and a USB port, which can be used to power a range of devices. A 'keep-clean' mat protects the cabinet shelf from spills and stains.

Charging Station - 2 pin charging socket and USB

Ether Cabinets

Ether's clever design fulfils all your lighting needs. Ambient lighting, on the sides and base of the cabinet, creates a radiant halo effect on your wall. Simultaneously, a precision line of super bright LED light crowns the mirrored doors, giving you defined light for personal grooming or applying make-up.

You can adjust the ambient light, from cool white to a softer warm white, depending on your mood or bathroom scheme.

Inside the cabinet, there are integrated USB chargers and sockets for shavers. A removable silicone mat keeps your shelves smear-free.

[See page 139 for technical details.](#)

Vapor Cabinets

These beautifully designed cabinets are fitted with a proximity sensor. When you step in front of the mirror, the sensor activates radiant LED illumination and internal heat pads. These features stay on for five minutes after you have moved away, so you can switch them on, take a shower and come back to a clear mirror.

Ambient lighting underneath the cabinet adds another touch of luxury.

Summit - page 110

Find your lighting

The right lighting is key to creating your perfect bathroom ambience. It can invigorate you and prepare you for the day ahead, or relax and calm you when you need to unwind. The lighting in our range is both carefully considered and beautifully designed to set the mood and add a touch of understated luxury.

Scan for videos and further information on our lighting ranges.

Pendant Lighting

Peak

This stunning pendant light will fill your bathroom with radiance. The versatile design means it can be placed virtually anywhere in your bathroom, while the sleek chrome finish makes it a stunning feature.

Rise

Rise has a tapered glass pendant that diffuses 'daylight' illumination into the surrounding space, creating a fresh, spa-like ambience in your bathroom. This contemporary pendant light has a metre-long wire, so you can hang it high or low to suit your bathroom and your taste.

Summit

Summit's hand-blown glass pendant encases a retro-styled LED lamp that emits a warm, mellow light. It's perfect for creating a relaxing ambience to help you unwind after a long day.

Rhythm

Bluetooth® Light

Bluetooth® connectivity brings music to your bathroom

Rhythm features a Bluetooth®-enabled speaker that allows you to play your favourite music, podcast or audiobook straight from your device. A remote control means you can adjust the volume, skip a track and even change the dimmable LED light from cool white to warm white. Switch between a spectrum of red, green and blue hues to create a whole new level of ambience. This groundbreaking light helps you personalise your bathroom experience, setting the tone for an energetic morning routine or an indulgent evening pamper.

Find your ventilation system

When you invest in a premium bathroom, you want the assurance that it will continue to look fresh and new in the years to come. This is why a quality ventilation system is advised.

A build-up of steam and poor ventilation can cause a number of problems. These range from unsightly mould, to problematic damp and serious structural damage.

With these concerns in mind, we developed a range of design-led ventilation products that prevent an unhealthy build-up of condensation without compromising your style.

Scan for videos and further information on our ventilation ranges.

Cyclone Ceiling Fans

This high-powered inline fan comfortably clears condensation in a larger bathroom. **Cyclone's** slim, flushmounted grille sits discreetly in your ceiling and is quiet enough to maintain the relaxing ambience of your space.

[See page 143 for technical details.](#)

Cyclone, Chrome - Non Illuminated

Key features

Complete kit includes fascia, inline fan, 3 metre flexible ø10cm ducting, external fixed grille and steel hose clamps

Powerful 210m³/hr extraction rate

Low noise level of only 32dB

Optional warm or cool white LED illumination*

Adjustable run on timer. Select from 2 up to 30 minutes of extraction after the main light is turned off

IPX4 rated

*Replacement lamps available from HiB

How Cyclone works

The large and high powered inline motor is remotely sited within the loft space and is connected to the fascia and external wall grille by the supplied flexible ducting.

Jazz £131

Features

- Jazz mirror can be hung landscape or portrait
- Optional Demista pad available, see page 137 for Demista pads

Mirrors	Art No.	Height	Width	Net Weight	Landscape or Portrait?	Heated Pad
Rondo	61504000	Ø50cm	Ø50cm	1.9kg	N/A	Optional D1
Jazz	76029800	80 / 40cm	40 / 80cm	3.3kg	Both	Optional D1

Did you know, we offer...

A quality guarantee. 5 years from date of purchase on silver coatings on mirrors. 2 years from date of purchase on electrical components in the mirror.

Demista Pads

An effective solution to an everyday problem. A Demista pad can be easily fitted behind a mirror to deliver fast, efficient demisting in seconds. The technology is available as an optional extra on mirrors where indicated.

Other sizes available on request for contract orders.

Demista Pads	Art No.	Dimensions	
D1	37010	30 x 25cm	£59
D2	37020	30 x 57cm	£79
D3	37030	50 x 53cm	£103
D4	37040	50 x 105cm	£163

Magnifying Mirrors, Technical Details

Cirque and Libra LED Magnifying Mirrors

Page 54

Cirque £302

Libra £255

Cirque Features

- Colour temperature changing LED illumination
- 5x magnification
- Touch switch

Libra Features

- LED illumination
- 3x magnification
- Illuminates when you pull it towards you and turns off when you fold it away

Magnifying Mirrors	Art No.	Dimensions	Maximum Extension	Net Weight	Watts	Illumination Type	Lumens	IP Rating	Energy Rating

Features

- Complete kit includes fascia, inline fan, 3 metre flexible ø10cm ducting, external fixed grille and steel hose clamps
- Powerful 210m³/hr extraction rate
- Low noise level of only 32dB
- Optional warm or cool white LED illumination
- Adjustable run on timer. Select from 2 up to 30 minutes of extraction after the main light is turned off
- IPX4 rated

*Replacement lamps available from HiB

What’s the difference?

An inline fan is where the fan motor is remotely sited within the loft space and is connected to the fascia and external wall grille by the supplied flexible ducting.

A wall-mounted fan is where the fascia has an integrated fan and the ducting passes through the wall to an external grille. Our fans are also suitable for ceiling mounting.

Hush White Timer £104
Hush White Timer and Humidity £116
Hush White SELV £113

Hush Matt Silver Timer £116
Hush Matt Silver Timer and Humidity £127

Hush Chrome Timer £129
Hush Chrome Timer and Humidity £141
Hush Chrome SELV £136

Features

- Up to 97m³/hr extraction rate
- An ultra quiet level of 25dB
- Back draft damper
- Available in three colours, with timer or timer and humidity sensor
- White and Chrome fascias also have the option of a Safety Extra Low Voltage motor (SELV)
- IPX4 rated

Accessory Kits for Hush, Breeze and Air-Star

Accessory Kit White £19.50

Accessory Kit Brown £19.50

Features

- 3 meters of flexible Ø10cm ducting
- A choice of brown or white external fixed grille
- 2x steel hose clamps
- Compatible with:
Hush - Page 124
Breeze - Page 125
Air-Star - Page 126

Ventilation	Art No.
Accessory Kit, White	32400
Accessory Kit, Brown	32500

What's a SELV?

Designed for areas where a fan has to be fitted over or within zone 1 in a room containing a fixed bath or shower according to IEE wiring regulations. Our SELV fans include transformer.

Lighting Regulations

All installations must comply with guidelines which are based on a zonal concept. The diagram below illustrates this concept and must be followed to ensure the safe installation of electrical appliances in the bathroom. These regulations apply to domestic installations only. Installations must be made in accordance with the current IEE wiring regulations and relevant building regulations. HiB recommends that all electrical bathroom products should only be fitted by a suitably qualified, Part P registered electrician.

Zone 1 refers to the area above the shower up to a height of 2.25 metres and requires a minimum rating of IP44 or higher and if the fitting is 240V a 30ma RCD must be used to protect the circuit.

Zone 2 covers an area 0.6 metres wide immediately next to, and all round zone 1. Wash basins should also be treated as zone 2. The minimum rating here is IPX4.

Outside Zone has no special requirements, unless water jets are likely to be used for cleaning purposes.

The IP (Ingress Protection) Standard describes a uniform system for classifying the degrees of protection provided by the enclosures of electrical equipment.

For example, if a bathroom's light is rated IP65, then the 6 means its 'Protected against Dust' and the 5 means its 'Protected against Water Jets' from a shower, tap or cleaning processes from any direction.

First numeral - protection against ingress of foreign bodies, E.G. Tools, dust, fingers, etc.

0 No protection	1 Protected against solid objects with a diameter of 50mm and over (e.g. Accidental insertion of hands).	2 Protected against solid objects over 12mm (e.g. jointed fingers).	3 Protected against solid objects over 2.5mm (tools).	4 Protected against solid objects over 1mm (small wires).	5 Protected against dust - limited ingress permitted (no harmful deposit).	6 Totally protected against dust.
---------------------------	--	---	---	---	--	---

Second numeral - protection against ingress of liquids.

0 No protection	1 Protected against drops of condensed water. Drops of condensed water falling on the enclosure shall have no harmful effect.	2 Protection against drops of liquid. Drops of falling liquid shall have no harmful effect when the enclosure is tilted at an angle up to 15 degrees from the vertical.	3 Protection against rain. Water falling in rain at an angle equal or smaller than 60 degrees with respect to the vertical shall have no harmful effect.	4 Protection against splashing. Liquid splashed from any direction shall have no harmful effect.	5 Protection against water jets. Water projected by a nozzle from any direction under stated conditions shall have no harmful effect.	6 Protection against immersion on ship decks (deck equipment). Water from heavy seas shall not enter the enclosures under prescribed conditions.	7 Protection against immersion in water. It shall not be possible for water to enter the enclosure under stated conditions of pressure and time.	8 Protection against indefinite immersion in water under specified pressure. It shall not be possible for water to enter the enclosure.
---------------------------	---	---	--	--	---	--	--	---
