THE COLLECTION **2020**

High **Quality** & **Stylish** Showering Solutions

For over 20 years Kudos has built a reputation for the highest quality and is widely recognised as the UK's leading independent shower enclosure manufacturer.

Designed in house by our specialist technical team, every Kudos product is hand built in our own factories by dedicated staff, tested to the highest European standards and are individually inspected before leaving us to ensure complete customer satisfaction.

In addition to enclosures, shower panels and bath screens, we manufacture Shower Trays and Wet Room systems so you can be sure that your Kudos shower area is built on a solid and reliable foundation.

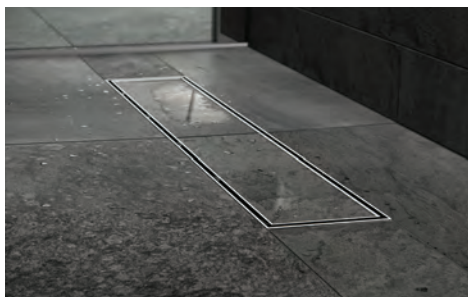

All kudos products are covered by our Lifetime Guarantee against material or manufacturing defects for your complete peace of mind

*Guarantee applies to material and manufacturing defects only.
See website for full Terms and Conditions.

K KUDOS

Helping You To Choose Your Perfect **Shower Enclosure**...

With a wide variety of Doors, Enclosures and Screens to choose from it can sometimes be difficult to decide which is best suited to your needs. To help you select the right products we have created a simple guide using icons to represent the various styles, shapes and sizes along with an indication of where they can be positioned. These icons are then used in each shower section to indicate availability and suitability of each product.

In the event that you cannot find the ideal solution we do not consider our bespoke service Signature by Kudos, see page 140 for more information.

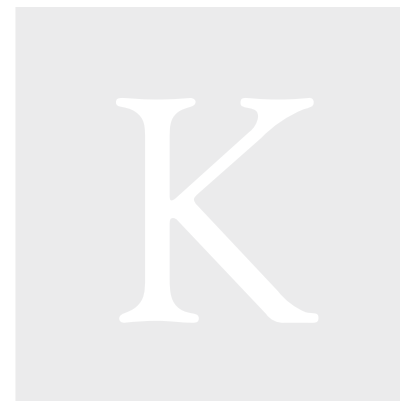

*Guarantee applies to material and manufacturing defects only.

See website for full Terms and Conditions.

+ pinnacle8 sliding enclosure
on connect2 tray, see page 66

Helping You To Choose Your Perfect **Shower Enclosure**

With such a large range of products that cover a wide variety of styles, shapes and sizes, we have created a few simple icons to assist in finding the right solution for your needs. Essentially, showering positions will be either in a recess, corner or against a single wall. The three icons; Recess, Corner or Three Sided will indicate if a particular door can be used for that situation. We have split door sizes into three categories; Small (760mm+), Medium (1000mm+) and Large (1400mm+) . These icons are shown against each door style to indicate what is available, exact sizes are shown in the detail. We have also created simple icons to graphically show the variety of door styles available. A combination of these icons are shown in each of the enclosure categories to help you find the perfect shower.

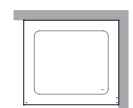

Step 1 - Position

Depending on your available space and design preferences you should start by choosing the location to contain your perfect shower experience.

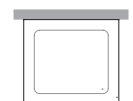

+ Recessed Enclosure

Any shower arrangement positioned between two walls.

+ Corner Enclosure

Positioned in a corner these arrangements work with a standard door and a side panel or a corner only design.

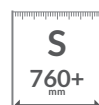

+ Three Sided Enclosure

Fitted against a single wall usually requiring a door and two side panels.

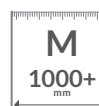

Step 2 - Size

Having decided where to position your shower enclosure it should be easy to determine how much space you have and what size of enclosure will fit. We have split sizing into three categories, small, medium and large.

+ 760mm Plus

Doors and enclosures suitable for sizes 760mm and above.

+ 1000mm Plus

Doors and enclosures suitable for sizes 1000mm and above.

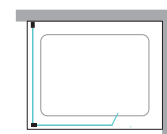

+ 1400mm Plus

Doors and enclosures suitable for sizes 1400mm and above.

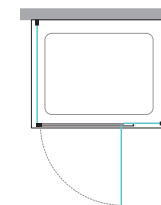

Step 3 - Style

Having chosen position and size you can now see which door styles are available to meet your requirements. Alternatively you can start with the style of your choice and then determine the size and location you need.

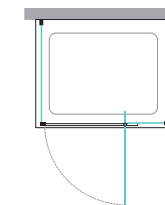

+ Walk In Enclosure

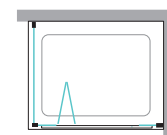

+ Hinged Door

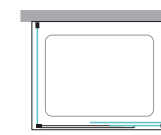

+ Pivot Door

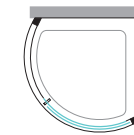

+ Bi-Fold Door

+ Sliding Door

+ Curved Corner Enclosure

ultimate

Offering the **ultimate** in **versatility**

This extensive range of toughened safety glass shower panels are available in both 8 and 10mm glass as well as two sizes of stunning 8mm curved glass options. ultimate

Flat Glass Shower Panels

The **ultimate** system offers 11 panel sizes in a choice of either 8 or 10mm and can be configured to suit virtually any situation.

Available with Silver/Chrome or Matt Black fixings

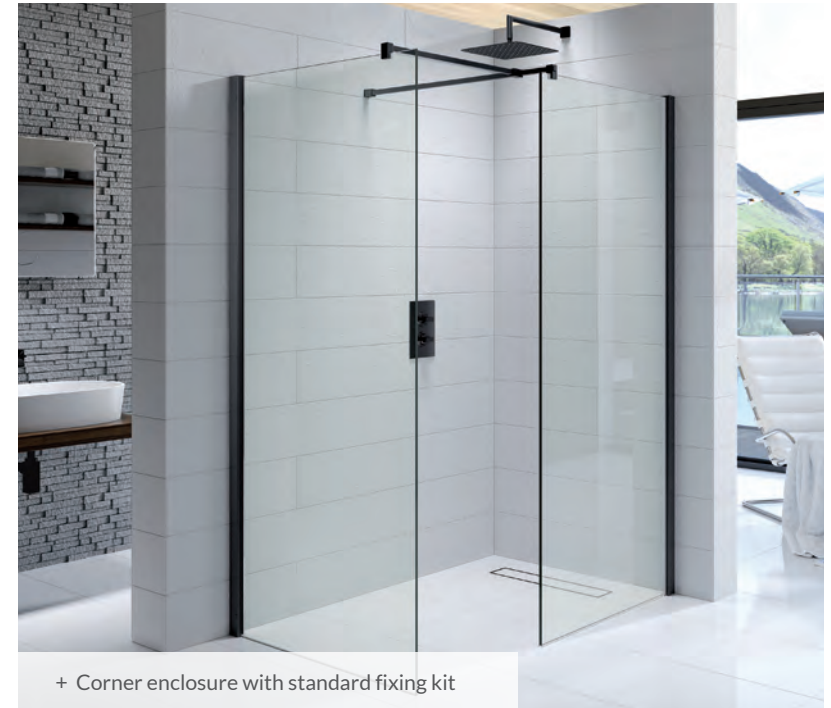

Features

- + Wide range of panel sizes in 8mm or 10mm
- + 1985mm high including fittings
- + Choice of fixings
- + Suitable for shower trays or tiled floors
- + Optional retro-fit deflector panels
- + Crystal clear seals
- + Lifeshield™ easy clean glass protection
- + Lifetime Guarantee*

For codes and prices on this product, see **page 13**

+ Three sided enclosure featuring 1 x 1100mm panel and 2 x 800mm panels with standard fixing kit

deflector panels

All Kudos deflector panels can be retro-fitted, so you only need to purchase one if you find that you need to provide greater protection from over-spray.

+ Fixed deflector panels are supplied with fittings to connect to both recess or corner configurations

With **ultimate** deflector panels you can now create a walk-in enclosure even where space is limited.

Featured here a 1200 x 800mm enclosure on a connect2 tray.

Featuring a 700mm panel, (providing the recommended 500mm access) and a 300mm left hand hinged deflector to contain any over-spray.

ultimate

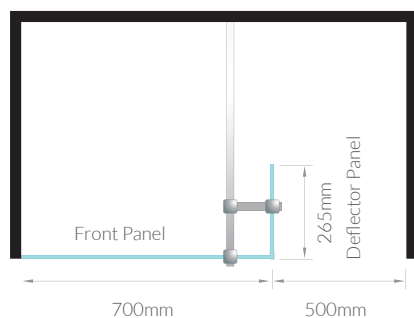

Deflector Panels

Designed to contain overspray and splashing within your designated showering area, the **ultimate** system offers a choice of either fixed or hinged deflector panels. These can be retro-fitted so only need to be purchased if found necessary.

Enjoy the pleasure and appearance of a walk-in shower even where space is at a premium. With the ability to fit a Deflector Panel it is now possible to create a functional and stunning enclosure even in the smallest spaces.

Fixed Deflector Panel

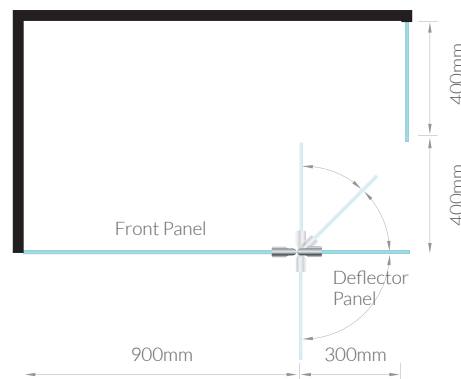

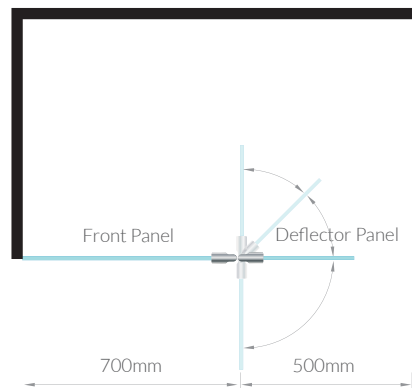

The fixed Deflector Panel is supplied with fittings to connect to standard stabilising bars only. N.B. This product cannot be used with ceiling or angled stabilising bars.

Please see **page 13** for sizes and prices

Hinged Deflector Panel

Example of Hinged Deflector Panel fitted in recess.
Hinged Deflectors can be fitted with either Standard, Ceiling or Corner stabilising bars.

In a corner installation a longer front panel can be fitted with a shorter side panel maintaining access of 500mm whilst the hinged Deflector Panel will contain any over-spray

All **ultimate** deflector panels can be retro-fitted.

ultimate

Fixing Kits

For maximum stability we recommend the use of the Standard Fixing Kit however, where this is not possible or desirable we have a choice of an angled stabilising bar or a ceiling fixing option. In all cases care should be taken to ensure that secure fixing is achieved especially when fixing to a ceiling. We do not recommend fixing to plasterboard alone.

+ Standard Fixing Kit

Shown: Front panel fixing kit with side panel fixing kit. Each stabilising bar is 1000mm long and can be cut to suit. A 1500mm front panel kit is also available.

+ Angled Fixing Kit

Available in 300mm or 500mm options.

+ Ceiling Fixing Kit

Ceiling fixing bar is 600mm long and can be cut to suit ceiling height.

Configuring our Shower Area

The variety of panel sizes, fitting options and the ability to join glass to glass with our unique crystal clear corner seal, means that with **ultimate** you can create virtually any configuration in an almost limitless range of sizes. Shown below are the most typical installation styles with a list of items required to create each option and the relevant fixing kits. Simply choose the glass panel sizes that suit your requirements, we recommend allowing 500mm for access to the showering area.

Recessed

1 x Glass Panel
1 x Wall Post
1 x Front Panel Fixing Kit*

**Standard, Ceiling or Angled*

Open Ended

1 x Glass Panel
1 x Wall Post
1 x Front Panel Fixing Kit*

**Standard, Ceiling or Angled*

Walk Through

1 x Glass Panel
2 x Front Panel Fixing Kits*

**Standard or Ceiling*

Corner

1 x Glass Panel (Front)
1 x Glass Panel (Side)
2 x Wall Posts
1 x Front Panel Fixing Kit*
1 x Side Panel Fixing Kit*

**Standard, Ceiling or Angled*

Corner (glass to glass)

1 x Glass Panel (Front)
1 x Glass Panel (Side)
1 x Wall Post
1 x Front Panel Fixing Kit*
1 x Corner Seal

**Standard or Ceiling*

Three Sided

1 x Glass Panel (Front)
2 x Glass Panels (Side)
2 x Wall Posts
1 x Front Panel Fixing Kit*
1 x Side Panel Fixing Kit*
1 x Corner Seal

**Standard or Ceiling*

When choosing your panel sizes we recommend allowing access of approx. 500mm. *Standard, Ceiling or Angled.

Fixed deflector panels can only be used with standard fixing kits. Hinged deflector panels can be used with any option.

ultimate

Curved Glass Shower Panels

In addition to the extensive range of flat panels the **ultimate** collection also offers two sizes of curved panels in 1000mm and 1200mm. These 8mm toughened glass panels are suitable for both corner and recess configurations.

Designed to fit a dedicated bowed front concept tray. Curved panels can be fitted direct to tiled floors, however unless the wet floor area is shaped to match the curve of the screen drainage may be impaired.

Features

- + Two panel sizes 1000mm & 1200mm
- + 1985mm high including fittings

Bowed Sliding Doors

Spacious and comfortable showering is guaranteed with a KUDOS Bowed Sliding Door Enclosure. Whilst requiring only 700mm of end wall space, these enclosures provide extra space just where you need it and make a perfect replacement for a standard bath.

Features

- + 5mm toughened safety glass
- + Sliding panel release mechanism for easy cleaning
- + Stainless steel roller bearings for smooth opening action
- + Left or right hand opening

The unique shape of **original classic** bowed sliding doors require a matching Kudos **concept shower tray**.

Details of corresponding tray sizes are available on [page 104](#)

Suitable for:

For full technical details on this product, see [page 42](#)

original **classic**

Curved Corner Sliding Enclosures

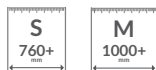

As with all Kudos **original classic** Sliding Doors, these products feature a unique release mechanism to allow easy cleaning between panels.

The elegant full curve shape of the Kudos Curved Corner Enclosure provides a generous showering area yet requires minimal wall space for fitting.

Features

- + Toughened safety glass
- + Sliding panel release mechanism for easy cleaning
- + Stainless steel roller bearings for smooth opening action
- + Left or right hand opening

Suitable for:

For full technical details on this product, see **page 43**

15mm Wall Extension Post	£41

original **classic**

Offset Curved Corner Sliding Enclosures

With all the features of the Curved Corner Enclosure, these ingenious products provide ideal space saving solutions whilst offering deceptively large showering areas. Requiring just 658mm along its short edge, the 1000 x 810mm offset can be easily accommodated in most bathrooms even where a door or window restricts available wall space. Extending out to 795mm and measuring up to 985mm at the widest point, this offset enclosure provides the comfort of a large enclosure in a relatively small space and is available in either centre or side access for maximum versatility.

The 1200 x 910mm Offset requires wall space of just 1165 x 728mm whilst the 1270 Offset requires 1185 x 819mm. Both versions are available in side access only and can be fitted to open either left or right hand.

Suitable for:

For full technical details on this product, see **page 43**

Kudos trays to suit Original Classic doors and enclosures

Kstone

Durable & stylish shower trays

Kstone 45mm high shower trays are available in rectangular, square, quadrant and offset quadrant shapes in a wide range of sizes. Suitable for a 90mm waste (supplied separately)

For full technical details on this product, see **page 101**

We recommend the use of Flexi-Seal when installing Kudos shower trays.

For further information about Flexi-Seal see **page 107**

connect**2**

A **revolution** in shower tray design

The stunning looking **connect2** is a uniquely designed low level shower tray just 35mm high, featuring two offset waste positions that ensures an obstruction free connection.

connect2 Trays come supplied with a high flow 50mm waste.

For full technical details on this product, see **page 97**

concept

Uniquely original shower trays

Created specially for use with uniquely shaped Kudos enclosures these 55mm high trays require a 90mm waste (supplied separately)

For full technical details on this product, see **page 104**

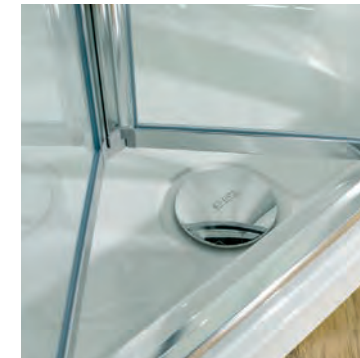

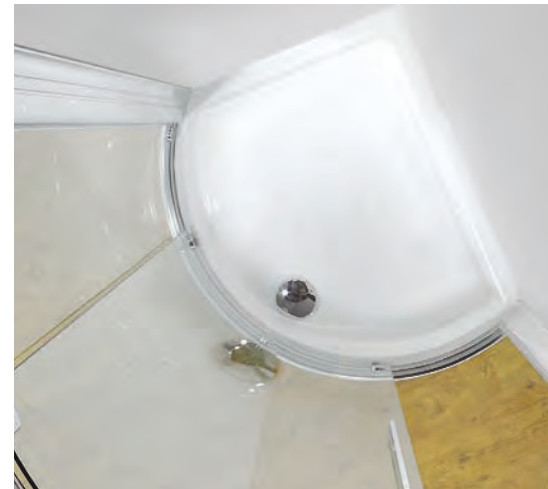

Manufactured in our own UK factories and covered by a lifetime guarantee, all Kudos shower trays are made from the highest quality materials. These include an acrylic capped ABS skin, which provides a superb high gloss finish that is durable as well as being resistant to impact damage and staining. The structural resin bonded stone filler provides incredible stability.

original**6**

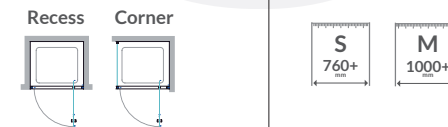

Pivot Doors

A combination of perfect simplicity with elegant style and precise engineering, the **original6** pivot door provides the ideal showering solution. From the minimalist chrome plated cast metal handle to the smooth action of the Nylok and stainless steel pivot mechanism, these doors can be fitted between two walls (recess fitting) or combined with the semi-frameless side panel to create a corner installation.

Features

- + Nylok and stainless steel pivot mechanism
- + Pivot adjustment for precise closing
- + 20mm adjustment on each wall post
- + Die cast chromed handle

Suitable for:

original**6**

Bi-Fold Doors

This space saving **original6** Bi-folding door runs on a concealed bearingless guide system which ensures a smooth and silent opening and closing function. With click-to-lock hinges on the frameless door, closing feels precise and firm.

These inward folding doors are perfect where external space is limited and can be fitted between two walls (recess fitting) or combined with a semi-frameless side panel to create a corner installation.

Features

- + Bearingless Guides for smooth movement
- + Frameless Door
- + Click-to-Lock Hinges
- + Concealed Fittings

Suitable for:

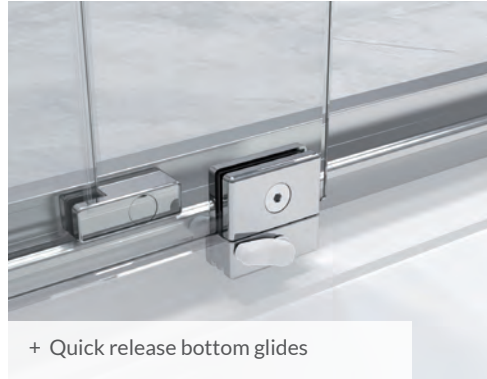

For full technical details on this product, see **page 57**

800 mm	£275
900 mm	£295

All **original6** doors can be extended in increments of 15mm with a door extension post.

original**6**

Straight Sliding Doors

Concealed twin wheel rollers with stainless steel bearings and dynamic adjustment provide a smooth and precise closing action whilst the quick release bottom guides allow for easy cleaning between the fixed and sliding panels. **original6** straight sliders maintain the tradition of attention to detail that has made Kudos the leading UK manufacturer of shower doors and enclosures. This elegant and stylish shower is suitable for recess or corner installations.

Available to suit 1000, 1100, 1200, 1400 & 1500mm shower trays

Features

- + Suitable for left or right hand opening
- + Concealed twin wheel rollers with dynamic adjustment
- + Quick release bottom guides for easy cleaning
- + Slimline handle

Suitable for:

For full technical details on this product, see **page 58**

+ 1000 x 810mm Offset curved corner enclosure on a connect2 tray

+ 910mm Curved corner sliding door

+ Stylish slimline handle

+ Twin rollers with stainless steel bearings

Curved Sliding Door Options

Due to the unique shape of the **Original6** Curved Corner Sliders they require a dedicated shower tray, see **page 97** for details of the stunning connect2 tray made specifically for these products.

Curved Corner Slider	Price inc VAT
910 x 910mm curved enclosure	£880
810 x 1000mm offset curved enclosure	£955
15mm Wall Profile Extension For Door Only	£41

All **original6** doors can be extended in increments of 15mm with a door extension post.

original**6**

Curved Corner Sliding Enclosures

With the same technical features of the Straight Sliders the unique shape of the **original6** curved corner sliders bring a new dimension to corner enclosures. The key element of the **original6** curved sliders is that both the sliding panel and the fixed panel are curved, this provides additional stability and allows the sliding panel to remain within the framework of the enclosure ensuring a smoother opening and closing action. This unique design provides an additional benefit of requiring less wall space than would normally be needed for enclosures of this size.

Features

- + Suitable for left or right hand opening
- + Twin wheel rollers with stainless steel bearings and dynamic adjustments
- + Quick release bottom guides for easy cleaning
- + Slimline handle

Suitable for:

For full technical details on this product, see **page 57**

Kstone

Durable & stylish shower trays

Kstone 45mm high shower trays are available in rectangular, square, quadrant and offset quadrant shapes in a wide range of sizes. Suitable for a 90mm waste (supplied separately)

connect2

A **revolution** in shower tray design

The stunning looking **connect2** is a uniquely designed low level shower tray just 35mm high, featuring two offset waste positions that ensures an obstruction free connection. **connect2** Trays come supplied with a high flow 50mm waste.

For full technical details, see **page 95**

Manufactured in our own UK factories and covered by a lifetime guarantee, all Kudos shower trays are made from the highest quality materials. These include an acrylic capped ABS skin, which provides a superb high gloss finish, that is durable as well as being resistant to impact damage and staining. The structural resin bonded stone filler provides incredible stability.

infinite

Modern minimalist design

The stunning Kudos **infinite** range offers a modern, minimalist look with many design features that improve, enhance and enrich the range, making it one of the most technically advanced showering enclosure systems available today.

All Infinite Doors feature

- + Crystal clear, glass to glass seals
- + Unique three dimensional adjustment system
- + Concealed fixing
- + 6-8mm toughened safety glass with Lifeshield™

*Guarantee applies to material and manufacturing defects only.
See website for full Terms and Conditions.

infinite

+ Offset curved sliding enclosure

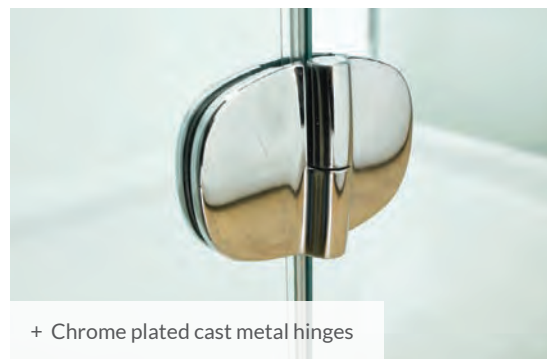

+ Three sided straight sliding door

+ Bowed sliding door in recess

+ Semi frameless

+ Chrome plated cast metal hinges

infinite

Modern minimalist design

A choice of sliding, hinged or centre-folding doors and enclosures in sizes ranging from 760mm up to 1700mm. All Kudos infinite doors have the versatility to fit in a recess or with the addition of one or two Kudos side panels, will create two or three sided enclosures. This gives a range of options to suit even the most adventurous interior designer.

infinite

Bowed Sliding Doors

Sheer indulgence is the best way to describe the **infinite** Bowed Sliding Door Enclosure. Choose from 1200, 1500 or 1700mm width options, each of which tapers to 700mm at each end.

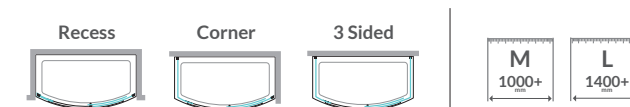

Never before has it been possible to create such a spacious enclosure in such a relatively small space. The 1700 version will fit in the same space as a standard bath and provide you with a showering area you could have only dreamed about.

All Bowed Sliding Doors can be fitted between two walls (recessed) or with either one or two special 700 side panels to create a corner or three-sided enclosure.

Features

- + Stainless Steel roller bearings for smooth opening action
- + Left or right hand opening

Suitable for:

For full technical details on this product, see **page 91**

infinite

Curved Sliding Enclosures

If you are looking for a stunning curved enclosure then look no further. Available as a corner unit in 2 sizes, 910 x 910 or 1000 x 1000 either 2 door centre access or single door side access or make a statement with the magnificent 1200 x 910 Peninsula Enclosure.

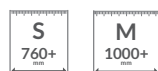

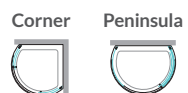

Features

- + Toughened safety glass with Lifeshield™ protection
- + Stainless steel roller bearings for smooth opening action
- + Left or right hand opening
- + Generous 1900mm door height
- + Unique space saving shape

Due to the unique shape a matching **Kudos shower tray** is required.

Details and prices of corresponding tray sizes are available on **pages 95**.

infinite

Offset Curved Corner Enclosure With Sliding Doors

With all the same features as the standard **infinite** Curved Corner Enclosure, the Kudos Offset Curved Corner Enclosure provides greater versatility by shortening the length of one side whilst increasing the length of the other.

This helps overcome space issues caused by door or window locations. Available as 1000 x 810 or 1200 x 910, the required wall space on the short side is only 655mm and 724mm respectively. Both available in a choice of single door side access or 2 door centre access.

Features

- + Stainless Steel roller bearings for smooth opening action
- + Left or right hand opening
- + Unique space saving shape

Suitable for:

For full technical details on this product, see **page 90**

connect2 trays are supplied with a stylish colour matched linear waste cover, magnetically secured and reinforced for comfort and stability underfoot.

connect2 shower trays are available in a range of sizes. See **page 99** for details and prices.

connect2

A **revolution** in shower tray design

Developed and manufactured in the UK by Kudos, the UK's leading supplier of innovative showering solutions. The stunning looking connect2 is a uniquely designed shower tray featuring two offset waste positions that ensures an obstruction free connection.

The attractive low profile connect2 tray will never let a joist get in your way again thanks to the unique offset dual waste outlet. Whether square, rectangular or the new quadrant - whatever the size, the connect2 tray will allow you to connect the waste fitting without the need to reposition joists or raise the tray onto a plinth.

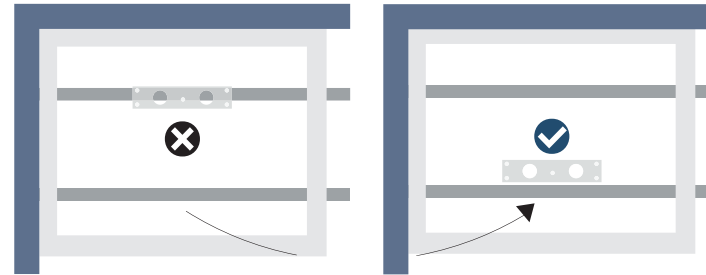

We recommend the use of Flexi-Seal when installing KUDOS shower trays.

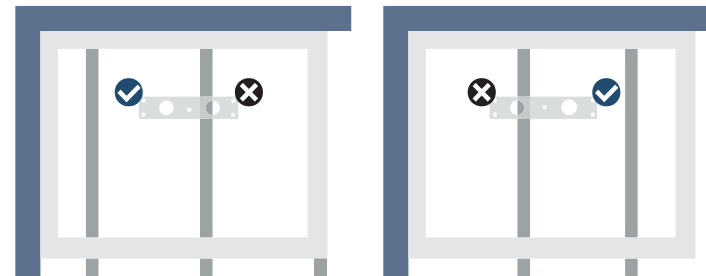

For further information about Flexi-Seal see **page 107**

Waste connection on square and rectangular trays

Rotate 180° to avoid joists

Where joists run parallel to the length of the tray and both holes are obstructed, simply turn the tray 180°. The unique offset position will ensure both will become free.

Where joists run parallel to the width of the tray, at least one hole will always be clear.

With the unique connect2 design even Quadrant and the Kudos unique Full Curve shape trays has the ability to avoid joists

connect2 shower trays are available in a range of sizes. See **page 99** for details and prices.

Durable & stylish shower trays

Manufactured in our own UK factories and covered by a lifetime guarantee, Kstone trays are made from the highest quality materials. These include an acrylic capped ABS skin, which provides a superb high gloss finish that is durable as well as being resistant to impact damage and staining. The structural resin bonded stone filler provides incredible stability.

Kstone shower trays are available in rectangular, square, quadrant and offset quadrant shapes - in a wide range of sizes.

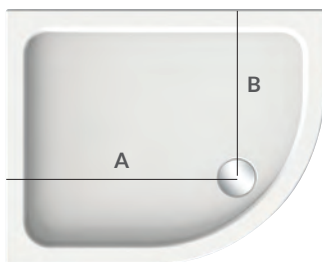

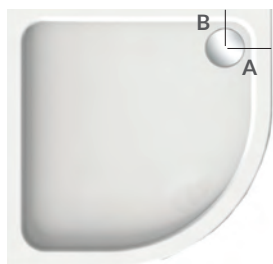

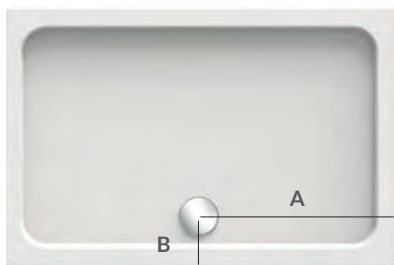

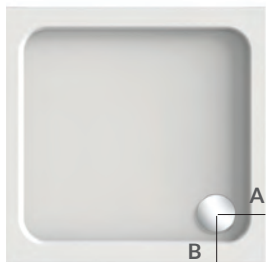

Features

- + High-gloss acrylic capped ABS skin for durability and resistance to impact damage
- + Structured resin bonded stone filler for increased stability
- + Suitable for 90mm waste (supplied separately)
- + Also available with Kamba ant-slip coating.
- + Covered by the KUDOS Lifetime Guarantee

We recommend the use of Flexi-Seal when installing KUDOS shower trays. For further information about Flexi-Seal, see **page 107**

KAMBA Anti-Slip Coating

Safe and confident showering for all

After the kitchen, the bathroom is the place in the home where most accidents occur, primarily as a result of slipping on wet and often soapy surfaces. Protect yourself and your family with Kudos shower trays treated with KAMBA anti-slip coating.

KAMBA is considered the leading anti-slip surface coating material in the UK and is exclusively available on Kudos **connect2** and **Kstone** trays.

Creating an invisible textured surface which offers unparalleled anti-slip properties providing everyone a safer environment to shower in, ensuring a feeling of security and confidence.

Exclusively available from Kudos Shower Products, the UK's leading supplier of shower enclosures and trays, KAMBA anti-slip coating is manufactured in Germany, is compliant with DIN 51097 for barefoot areas and is TUV tested and appropriately certified at the highest anti-slip rating class 'C'.

Exclusively available on **Kstone** and **connect2** shower trays

Features

- + An invisible textured surface with unparalleled anti-slip properties
- + Exclusively available on Kudos Kstone and connect2 shower trays
- + Conforms to the highest European quality standards. Class 'C' slip resistance.

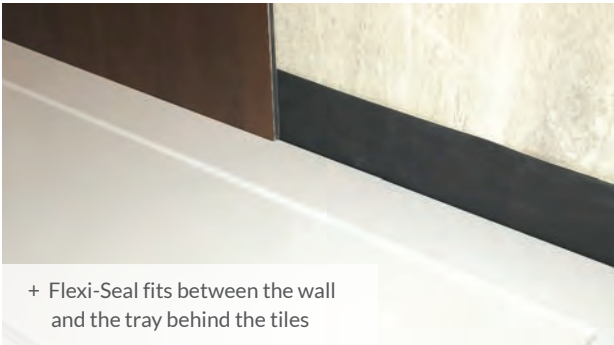

Protection from hidden leaks

Flexi-Seal uses a combination of durable flexible rubber with a waterproof butyl based adhesive to give maximum protection where the shower tray meets the wall.

As the rubber is flexible, it will maintain a watertight seal whilst allowing for a certain amount of movement that is inevitable, particularly in new builds.

Flexi-Seal fits between the edge of the tray and any abutting wall. It provides a flexible seal behind the tiles or wall panels avoiding any issues caused by potential grout or silicone failure.

+ Flexi-Seal fits between the wall and the tray behind the tiles

Product	Size	Code	Price inc VAT
Flexi-Seal	2m	KFS2	£27
Flexi-Seal	3m	KFS3	£40
Flexi-Seal	4m	KFS4	£53

aqua4ma

Wet Room systems

There is no doubt that a fully tiled wet-floor extending into the shower area creates a stunning look, but appearances can be deceptive and it's what's lying beneath the surface that counts.

With aqua4ma by Kudos you can create the perfect wetroom with the comfort of knowing that the elements you cannot see, but need to rely on, have been designed by one of the UK's leading manufacturers of high quality showering products with the added comfort of a lifetime guarantee against material or manufacturing defects.

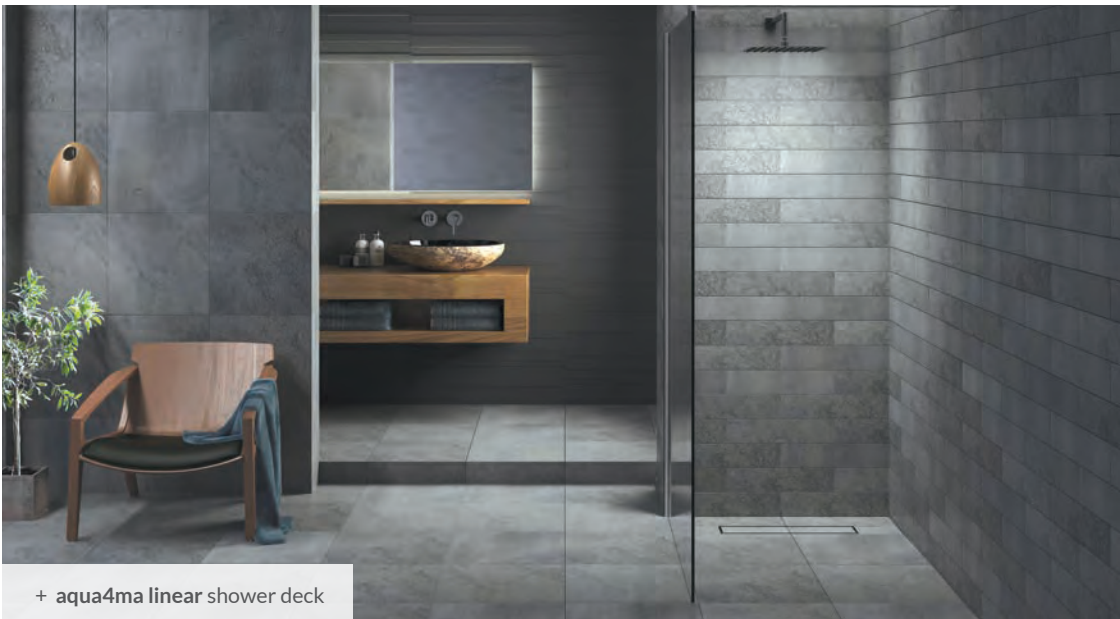

Choose between the versatile aqua4ma central, suitable for both tiled and vinyl floor covering, or aqua4ma linear with its stylish tiled drain cover.

*Guarantee applies to material and manufacturing defects only.
See website for full Terms and Conditions.

aqua4ma

aqua4ma

Wet Room systems

Both systems utilize the patented **aqua4ma** in-floor galvanized steel tray and a pre-shaped extruded uPVC shower deck which is waterproof and safe to walk on even before tiling and can be fitted to both wooden and solid floors.

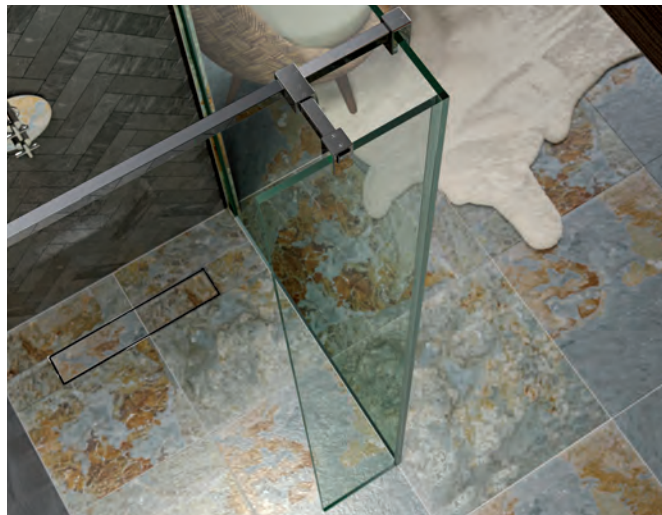

Additional uPVC floor and wall panels can be added to create a complete wet-floor or total wet-room solution. Joints are solvent welded together to form a solid structure which is guaranteed waterproof for life*.

Floor and wall panels can be screwed directly to wooden floors or bonded to solid floors with a cement based flexible tile adhesive. The uPVC panels self seal around screws so no further treatment is required and the system is ready to tile within minutes of fitting. Longevity is ensured as unlike other systems the robust nature of **aqua4ma** panels allow for the removal and replacement of tiles without compromising the waterproof integrity of the system.

aqua4ma

linear

aqua4ma linear

As **versatile** as you need

As a home-owner you will appreciate the **aqua4ma linear** Shower Deck for its high performance as well as its modern, sleek and stylish appearance.

As an installer you will not only appreciate the versatility, ease and speed of fitting the **aqua4ma linear** Shower Deck, you will also enjoy the comfort of knowing that you are providing your customers with a product guaranteed for life* and backed by a trusted British manufacturer.

Features

- + Ultra-low level 19mm shower deck
- + Fits to existing finished floor or to false floor created at joist level
- + Deck size: 1185mm x 900mm, easily extended
- + Simple and quick to install with no drying times
- + Waste design allows for avoidance of joist for easy installation

*Guarantee applies to material and manufacturing defects only.
See website for full Terms and Conditions.

aqua4ma linear

Product Specifications

Width Extension Panels

The **aqua4ma linear** Shower Deck comes in a standard size of 1185mm x 900mm. This can be extended with the addition of the 300mm width extension pack.

Two sections of **aqua4ma** panelling each 150mm wide are shaped to match the falls of the shower deck and can be trimmed to suit the size required.

+ Deck Size: 1185 x 900mm
Extension panels: 150 x 900mm

+ Standard: 19mm above existing floor level

aqua4ma linear Shower Deck mounted on top of existing floor level. 19mm aqua4ma Panels can then be used to extend the waterproof area to the same height of the shower deck.

+ Standard: 10mm above existing floor level

Flooring removed to size of **aqua4ma linear** Shower Deck, create a false floor at joist level, add plywood panel to lift shower deck 10mm above existing floor level to allow joining to aqua4ma Floor Panels. Then use **aqua4ma** 10 mm Panels to waterproof all or part of the floor to the same height as the shower deck.

+ Ultra-Low: 19mm above joist level

Flooring removed to size of shower deck and false floor created at joist level. **aqua4ma linear** Shower Deck fitted.

+ Ultra-Low: 19mm above joist level

(Additional waterproof floor area at same level)
Flooring removed to desired area and false floor created at joist level.

aqua4ma linear Shower Deck and 19mm floor panels fitted within the removed floor area.

Product Specifications

Installing Over Joists

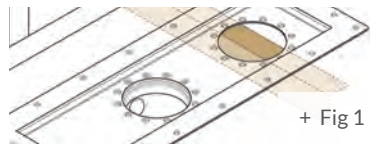

aqua4ma linear has two waste hole positions (**Fig1 & 2**).

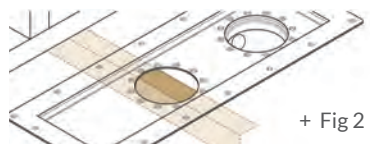

If joists run along the length of the deck, you simply choose the position that will avoid them.

Should joists run across the deck (**Fig 3**) and obstruct the waste location, a wedge shaped extension panel is available (**Fig 4**).

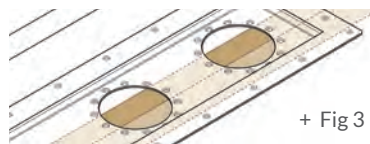

This 250mm trim-to-fit panel solvent welds to the base so it can be moved away from the obstructing joist whilst maintaining the fall to ensure efficient drainage.

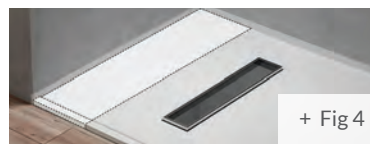

+ Fig 1

+ Fig 2

+ Fig 3

+ Fig 4

Installing aqua4ma linear

aqua4ma's incredible versatility ensures you can create a wet room to suit your needs. How you install the aqua4ma Skirting, Floor and Wall Panels is only limited by the type of installation you want to make.

The **aqua4ma linear** system can be installed on its own to provide a low-level shower deck or in conjunction with **aqua4ma** Floor / Wall Panels to create a larger, totally watertight area.

+ Wet Areas

Shower Deck Kit & Skirting installation

This installation incorporates the **aqua4ma linear** Shower Deck Kit plus Skirting to the showering area only.

Remaining floor area must be built up to the same level as **aqua4ma** Base.

+ Wet Floors

Floor & Skirting Installation

Entire floor is covered using the appropriate **aqua4ma** Panels. The walls are fitted with aqua4ma Skirting Panels.

+ Wet Rooms

Shower Area Installation

Entire floor plus walls within the shower area are covered using the appropriate **aqua4ma** Panels.

The remainder of the walls are fitted with aqua4ma Skirting Panels.

aqua4ma central

Product Specifications

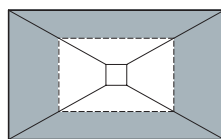

Tray Pack Size Options

aqua4ma is now more flexible and versatile than ever. aqua4ma central shower tray packs are available in 5 standard sizes, the base being trimmable for maximum versatility.

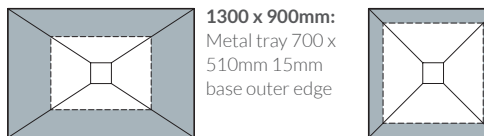

Bases can be cut to various shapes and sizes by trimming one, two, three or all four sides of the base sides up to the non-trimmable area, giving you the opportunity to create an infinite number of tray sizes to suit almost any bathroom requirement.

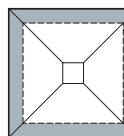

1700 x 900mm:
Metal tray 900 x 510mm
15mm base outer edge

1500 x 900mm:
Metal tray 800 x 510mm
15mm base outer edge

1300 x 900mm:
Metal tray 700 x 510mm
15mm base outer edge

900 x 900mm:
Metal tray 700 x 700mm
10mm base outer edge

Shower Tray Pack

The **aqua4ma central** shower Tray Pack includes all the elements needed to provide a strong, safe, reliable and watertight showering base. Each pack consists of:

Shower Base

The uPVC Pre-formed base allows water drainage down all 4 sides to the integrated waste. No pre-treatment is required as all bases are manufactured with a rough textured finish to give an excellent key for tile and vinyl adhesives.

Galvanised Metal Tray

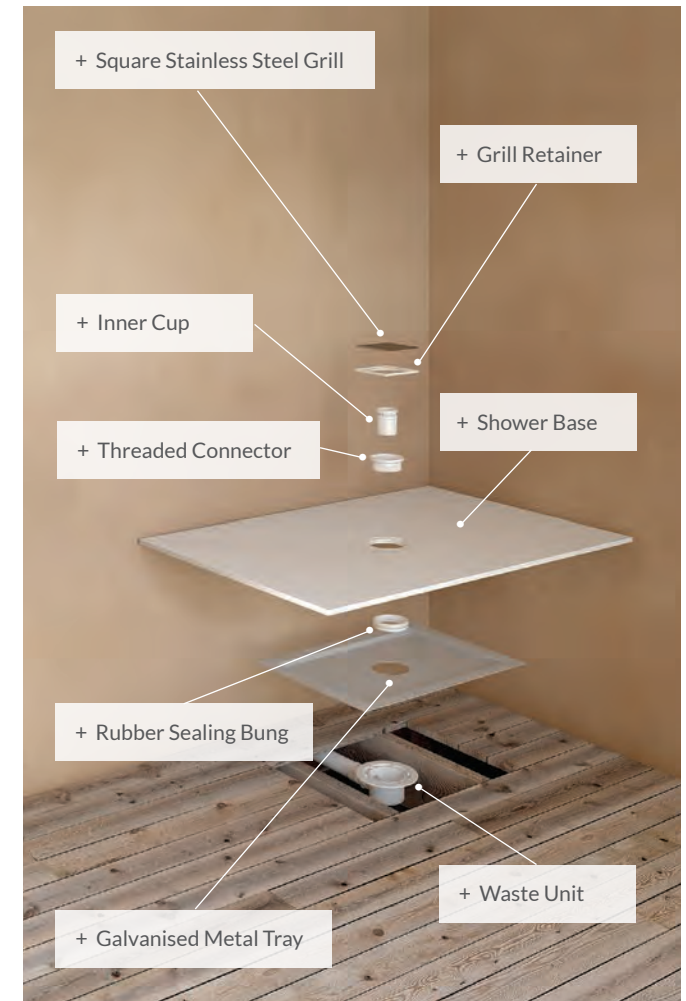

Strong galvanised tray to accept shower base and is screw fixed to joists and floorboards.

Waste Unit

Tiled waste option and vinyl waste option available. Specifically designed by McAlpine, the waste unit fixes to the underside of the metal tray and can be rotated through 15° increments to assist in plumbing work. The top access trap has a removable dip tube for easy cleaning. Standard 50mm water seal designed to take 50mm/2" solvent weld waste pipe (not supplied). Flow rates based on 15mm head of water:

Tiled Option - 37 litres/min

Vinyl Option - 33 litres/min.

Grabber Adhesive

Used to bond shower base to metal tray during installation.

Packing Pieces

4mm thick packing strips for fixing to joists when installing on 22mm thick floorboards.

Key Installation Stages

Place shower base in required position against wall/s and mark position of centre waste hole onto flooring. Remove base and position metal tray ensuring waste hole is centred over marked position. Mark corners of tray onto flooring. Measure and draw lines inside of marked corners, this is the area of flooring to be removed.

Using circular saw, saw depth to suit floor thickness and remove the area of floorboards. Connect waste body using 50mm/2" solvent weld waste pipe (not supplied), ensuring waste body is positioned to centre of the cut-out. Screw fix 4" x 2" (100 x 50mm) timbers (not supplied) to underside of flooring to strengthen the edges of the cut-out.

Mark centre lines of exposed joists onto flooring. Insert metal tray into cut-out and transfer drawn lines onto tray. Drill and countersink two holes per joist through metal tray to suit csk-head wood screws (not supplied). Screw metal tray into position.

Apply beads of KUDOS Grabber Adhesive to base of metal tray and the 4 outer flanges as shown. Carefully position shower base into position and stand on it to ensure it is fully bedded down onto tray and floor. Secure in place by using drywall screws (not supplied) around the perimeter at 150mm centres ensuring these avoid the metal tray underneath.

Using KUDOS Solvent Weld, apply a continuous bead to the edge of the shower base, as shown. Lay the first aqua4ma panel up to the edge of the base applying pressure to ensure the panel is fitted firmly against the base edge. Secure the panel in place using drywall screws at 150mm centres, then wipe clean surplus solvent weld. Joints should be staggered, as shown to help strengthen the overall assembly.

Apply a continuous bead of solvent weld to the edge of the shower base, as shown. Lay the first panel onto base and against the wall applying pressure to ensure the panel is fitted firmly against the base. Secure the panel in place using drywall screws at approx. 150mm centres into the stud-work, then wipe clean surplus solvent weld.

Panels can be fixed to solid walls, e.g. brickwork or blockwork, by applying a cement based flexible tile adhesive (NOT READY MIXED) to the back of the panels using a deep notched trowel.

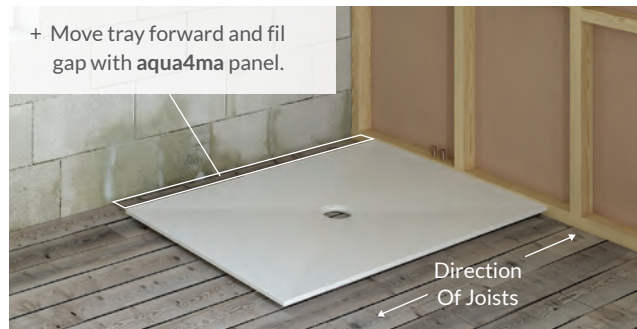

aqua4ma central

Product Specifications

Avoiding Joists Or Pipes

Avoiding joists or pipes under the floorboards is easy with aqua4ma.

If the base position results in the waste being over a joist you can either trim the base then re-position against wall/s or offset the base away from the relevant wall and fill the gap using aqua4ma panel. Move tray forward and fill gap with **aqua4ma** panel.

aqua4ma Panels

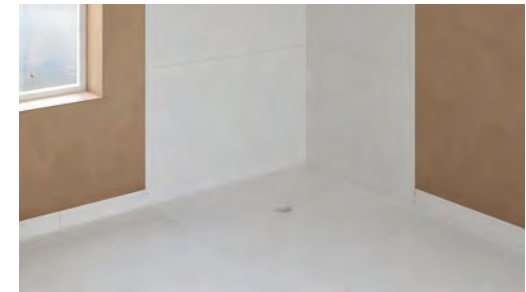

aqua4ma Panels

aqua4ma Panels are available in three different thicknesses, 10mm, 13mm and 15mm, to suit the relevant Shower base. Each supplied either in 2 or 3 panel packs. The panels measure 1200 x 800mm (approx.) providing almost a square metre of coverage.

15mm panels are supplied with tongue and grooved edges to assist on installation. 10mm and 13mm panels are supplied square edged.

Please refer to the table on **page 122** to calculate which panel thickness you require for floor.

aqua4ma Skirts

Available in 10mm and 15mm thicknesses **aqua4ma** Skirting measures 1200 x 150mm and are supplied in packs of four.

aqua4ma Panels and Skirting are both easily trimmable and can be fitted to both floor and walls by either screw fix method for timber floors and wall studwork or by applying cement based flexible tile adhesive to reverse of panels for solid floors and walls.

No pre-treatment is required as all panels are manufactured with a rough textured finish to give an excellent key for tile and vinyl adhesives.

aqua4ma Solvent Weld

aqua4ma Solvent Weld (sold separately) is supplied in 300ml tubes, suitable for 20 linear metres of joints or approximately four 1200 x 800 aqua4ma Panels and is applied using a standard 'silicone gun'. This specially formulated solvent provides an incredibly strong and watertight joint to all uPVC panels and Shower base.

Installing aqua4ma to meet your needs

aqua4ma's incredible versatility ensures you can create a wet room to suit your needs. How you install the aqua4ma Skirting, Floor / Wall Panels is only limited by the type of installation you want to make.

Full Room Installation

Entire floor and all walls are covered with the appropriate **aqua4ma** Panels.

Note: Guarantee of water tightness applies only to where the aqua4ma product has been installed..

Floor & Skirting Installation

The entire floor is covered using the appropriate **aqua4ma** floor panels.

The walls are fitted with **aqua4ma** Skirting Panels.

Shower Room Installation

Entire floor plus walls within the shower area are covered using the appropriate **aqua4ma** Panels.

The remainder of the walls are fitted with aqua4ma Skirting Panels.

Shower Tray Pack & Skirting Installation

This installation incorporates the **aqua4ma central** Shower Tray Pack plus Skirting to the showering area only.

Remaining floor area must be built up to the same level as **aqua4ma** Base.

aqua4ma central

Product Specification

Installing Panels & Skirting

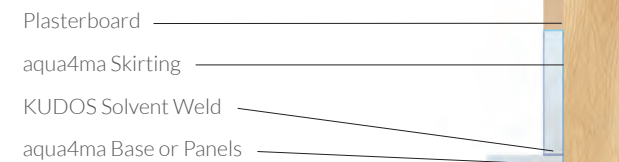

To achieve a flush finish to existing wall surface, plasterboard/plaster must be removed then panels & skirting are fitted to studwork/solid wall flush to wall surface. Shower base must be positioned to studwork/solid wall so that panels and skirting can be solvent welded to top of this.

Plasterboard/plaster to be removed and skirting panels fitted ensuring these are flush with the wall surface. Solvent weld all joints.

Solid Wall

Stud Wall

Product Specifications

Shower base

The bases can also be trimmed on one, two or three sides - any cut side(s) should be placed against a wall to ensure the outer uncut side(s) retaining the same edge thickness, face into the room.

Please refer to table shown to calculate the reduction in edge thickness dependent on amount trimmed on each side.

Shower Tray Sizes	Reduction in outer edge thickness for every 10mm trim	
	X	Y
900mm x 900mm	0.25mm	0.25mm
1300mm x 1300mm	0.25mm	0.25mm
1300mm x 900mm	0.25mm	0.37mm
1500mm x 900mm	0.20mm	0.37mm
1700mm x 900mm	0.18mm	0.37mm

As **individual** as you...

Our extensive range of products cover a vast array of showering solutions with an unrivalled selection of overbath screens, enclosures and shower panels.

However, on occasions a standard sized product just will not suit the situation, in which case our bespoke service may be able to help. Many products within the Kudos range can be tailor made to meet your requirements, whether it is a one-off special size shower door, a shaped panel to accommodate a sloping ceiling or a special design enclosure or bath screen for a housing development or hotel.

Whilst not all products can be made to measure we will apply our knowledge and expertise to try and provide you with a solution that meets your needs.

*Guarantee applies to material and manufacturing defects only.

Thank you for your interest in **KUDOS** products

Product Availability

KUDOS products are available from specialist bathroom retailers and plumbers merchants. For full details of your nearest stockist please refer to:
www.kudosshowers.co.uk

Pricing

All prices in this brochure are inclusive of VAT at the rate of 20%. KUDOS Shower Products Ltd reserves the right to introduce changes without prior notice.

Product Specifications & Dimension

All dimensions are in millimetres, unless otherwise specified. Whilst every effort is taken to provide accurate information, the details contained in this brochure are for guidance purposes only. Dimensions shown are nominal and product specification is subject to change without notice. References to 'silver' relate to colour only.

Image Reproduction

All images contained in this brochure are the copyright of KUDOS Shower Products Ltd and may not be reproduced in any form without prior written consent.

LIFETIME GUARANTEE

All KUDOS branded products carry a lifetime guarantee against faulty workmanship or materials excluding consumables. The guarantee does not cover normal wear and tear, damage caused by misuse or problems arising from faulty installation or any damage or defects to glass once assembly / installation has commenced. The guarantee is valid only for the original purchaser and is not transferable. Proof of purchase may be required for a claim under guarantee. The guarantee covers the product only; KUDOS cannot accept responsibility for subsequential loss or damage. For full details of our guarantee please visit
www.kudosshowers.co.uk

Use With High Performance Showers

References relating to product suitability for use with high performance showers assume that the showerhead is positioned appropriately for normal shower use and in the case of overbath showering does not include spray extending beyond the width of the screen. Please bear in mind the natural limitations of a door-less walk-in enclosure before fitting.

Lifesheild™ Glass Protection

The first permanent protection system for glass comes as standard on all KUDOS products. Lifesheild™ use the very latest nanotechnology to deliver a unique bond with the glass that leaves the surface totally smooth and helps to resist the build-up of unsightly limescale and soap deposits. Totally clear, UV stable and extremely durable, Lifesheild™ won't peel or flake. Unlike some other systems you don't really need any specialist cleaners or top-up products to maintain its direct repellent properties.

notes

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.
