## Why HiB Novum makes the difference..

Home is where the heart is and, when it comes to the bathroom, we all need a space that soothes the body and stirs the soul. That's why we created **HiB Novum** – to help homeowners find their signature style by designing beautiful bathroom products that make a statement.

Our extensive range of meticulously crafted bathroom furniture has an eye-catching option for everyone. Whether your dream bathroom is cool and contemporary or traditional and timeless, **HiB Novum** lets you create it, without compromise.

---

## How we design with **your bathroom** in mind...

Our designers understand that furniture is more than just storage, it's the foundation for your bathroom's unique style. **HiB Novum** is about finding the balance between functionality and flair – creating a bathroom you love, that fits around your lifestyle. For those who value individuality, our range of furniture finishes and mix and match countertops create a bespoke look for every household. From soft-close doors to a choice of ceramic or mineral marble basins, each detail of every **HiB Novum** product is designed to provide a show-stopping bathroom experience, no matter what the space.

For furniture that keeps your bathroom calm and clutterfree, while representing the style of your home, choose **HiB Novum**.

## Showcase your style...

Looking for bathroom inspiration but don't know where to start? Here's a few of the things you should consider when designing your new bathroom...

### Finishes

Love everything matching or prefer an eclectic mix of finishes for your home interiors? The secret to creating a bathroom design that reflects your personality, is to use bathroom finishes and materials as an extension of your individual style. If you're looking for consistency across your bathroom design, when choosing your handles, accessories and brassware, consider products either from the same range or those that have been produced in the same finish. Or if you prefer more variety, feel free to mix and match. We recommend using black and brushed brass finishes together to complement your bathroom furniture and décor. We have a comprehensive range of carefully curated finishes that offers solutions no matter what look you want to achieve.

### The Finishing Details

The finishing details can often be overlooked or left to the last minute, but they're often the first thing you notice as you enter your new bathroom. To help you make the most of your scheme, we've thought about all the additions you will need, taking you step by step through every aspect of the accessories that will make your space a joy to be in. From underlights with PIR sensors that turn on when they sense movement and will lift the darker areas of the room, to the toilet hinge plates with finishes to suit your style, each individual aspect has been considered so nothing is missed.

### Storage

Perhaps one of the most important considerations in the bathroom, storage can offer practical and decorative solutions in a successful design. Our ranges offer open and closed options with a number of configurations to fit any bathroom. Open storage can be particularly useful for displaying favourite items such as towels, plants and accessories that enhance the style of the room. Whereas hidden storage is crucial for all the personal essentials and cleaning goods that are required for everyday use.

Consider using a mix of open and closed storage to have the best of both worlds and maximise your bathroom's potential. Don't forget, if you're looking for more trends and style inspiration, you can download our **Trend Insights Guide** on our website.

## Creating your beautiful bathroom...

Close the door, light the candles and indulge in an invigorating soak. Your bathroom is your sanctuary, which is why its design should reflect your unique taste. With more than 30 years of experience helping customers to create stunning bathrooms, we understand what elements are needed for a space to be truly exceptional. From perfectly sized vanity units with essential storage to superior quality basins and countertops, we know what special touches make a space stand out.

### Size

Consider the space you have and your storage needs. Our ranges span from compact and cloakroom styles for smaller bathroom and ensembles that are limited on space to our more spacious units which are perfectly proportioned for suites and family bathrooms that require an abundance of storage.

### Basins and Countertops

Choosing between a washbasin and a vessel basin with countertop can be an important decision in the planning process and which one you decide on depends on your individual requirements and style. Thankfully, no matter which one suits your lifestyle, we have a wide selection to choose from.

### Finishes

Whether you choose to keep your bathroom co-ordinated or want to mix and match styles and textures to create a completely different look, our range of furniture finishes is right on trend. All our products are designed to be ultra hard-wearing, which will ensure your bathroom stays looking new for years to come.

### Storage

Those all-important essentials and personal items need a place of their own. Our vanity units and fitted furniture offer ample storage for those everyday objects that we all need close to hand during our bathroom routines.

With **Blend** the number of configurations is only limited by your imagination. Below you can find examples to inspire you.

## Creativity in **your** hands...

The layout of your bathroom has a huge impact on whether or not your design is a success. **Blend** offers the ability to really personalise your bathroom composition to suit you – a symmetrical setting is simple and pleasing to the eye, whereas an offset configuration can bring added interest and the opportunity to balance the composition with other elements such as a mirror.

Three distinct finishes gives you the opportunity to make your bathroom personal to you. Mix and match between Matt White, Greystone and Sherwood Oak finishes or co-ordinate with a colour-matched combination. Additional personal touches such as the optional black framed Basin Shelf Wall Bracket, which can be used as a practical towel rail, or the choice in complementary brassware can easily craft a boutique hotel feel.

## Handles for Fitted furniture

When it comes to the finishing touches, handles can be some of the most important items that are usually overlooked. Having the right handles for your design can add that extra touch of detail that sets the bathroom apart. They're also the part of the furniture we interact with most, so choosing a texture and finish that complements your taste is essential.

## Cold Start

Cold Start is a practical, energy saving feature that is incorporated into selected **Atlas** brassware ranges, making a leap in tap functionality.

HiB's **Atlas** Mono and **Atlas** Tall Mono mixers feature a full Cold Start position. When the tap is turned on, it serves cold water as standard. By turning the handle to the left, hot water can then be selected. This means that the boiler is only engaged when you need it, reducing energy and costs.

# Important Notes

HiB recommends that products are installed by fitters who are able to meet the level of competence required in order to comply with relevant regulations.

The images presented in this brochure are CGI generated so may not reflect colours and textures exactly. We recommend ordering a free furniture colour swatch from our website: [hib.co.uk](http://hib.co.uk).

All sizes and measurements are approximate, but we do try and make sure they are as accurate as possible and within acceptable tolerances. In the interest of continuous product development, HiB reserves the right to alter specifications as necessary.

Our products are constructed from a range of materials that are variable in nature. Paint and printed finishes may be subject to batch variation.

In the event of any issues, we stock a comprehensive range of spares and will endeavour to use this service in the first instance.

HiB Novum bathroom furniture is intended for domestic use only.

Ensure adequate ventilation is maintained in the bathroom. Timber products will be adversely affected by excessive moisture.

HiB Novum bathroom furniture is not suitable for use in a saunas, steam rooms, shower cubicles or wet rooms.

---

## Guidance

Always seal all cut edges with a silicone or polyurethane sealant.

### Countertops

When cutting a countertop to size, allow a minimum of a 4mm overhang each side of the furniture unit.

All square edge laminate countertops are supplied with a length of edging.

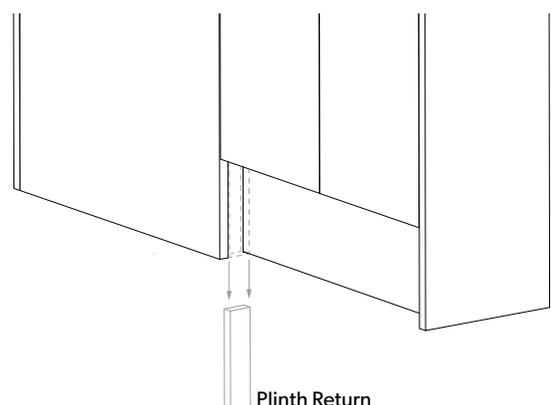

When cutting slimline laminate - compact grade countertops to size, we recommend placing the cut edge against a wall where possible.

### Cladding Panels

When installing a BTW in a furniture run, allow for plinth returns when selecting a suitable plinth length (see diagram to right).

All end panels, infill panels, plinths and bath panels are finished on all sides.

HiB recommends installing end panels, infill panels and plinths 2mm from the floor.

# Lighting Regulations

All installations must comply with guidelines which are based on a zonal concept. The diagram below illustrates this concept and must be followed to ensure the safe installation of electrical appliances in the bathroom. These regulations apply to domestic installations only. Installations must be made in accordance with the current IEE wiring regulations and relevant building regulations. HiB recommends that all electrical bathroom products should only be fitted by a suitably qualified, Part P registered electrician.

**Zone 1** refers to the area above the shower up to a height of 2.25 metres and requires a minimum rating of IP44 or higher and if the fitting is 240V a 30ma RCD must be used to protect the circuit.

**Zone 2** covers an area 0.6 metres wide immediately next to, and all round zone 1. Wash basins should also be treated as zone 2. The minimum rating here is IPX4.

**Outside Zone** has no special requirements, unless water jets are likely to be used for cleaning purposes.

## The IP (Ingress Protection) Standard describes a uniform system for classifying the degrees of protection provided by the enclosures of electrical equipment.

For example, if a bathroom's light is rated IP65, then the 6 means its 'Protected against Dust' and the 5 means its 'Protected against Water Jets' from a shower, tap or cleaning processes from any direction.

**First numeral** - protection against ingress of foreign bodies, E.G. Tools, dust, fingers, etc.

<b>0</b> No protection	<b>1</b> Protected against solid objects with a diameter of 50mm and over (e.g. Accidental insertion of hands).	<b>2</b> Protected against solid objects over 12mm (e.g. jointed fingers).	<b>3</b> Protected against solid objects over 2.5mm (tools).	<b>4</b> Protected against solid objects over 1mm (small wires).	<b>5</b> Protected against dust - limited ingress permitted (no harmful deposit).	<b>6</b> Totally protected against dust.
---------------------------	--	---	---	---	--	---

**Second numeral** - protection against ingress of liquids.

<b>0</b> No protection	<b>1</b> Protected against drops of condensed water. Drops of condensed water falling on the enclosure shall have no harmful effect.	<b>2</b> Protection against drops of liquid. Drops of falling liquid shall have no harmful effect when the enclosure is tilted at an angle up to 15 degrees from the vertical.	<b>3</b> Protection against rain. Water falling in rain at an angle equal or smaller than 60 degrees with respect to the vertical shall have no harmful effect.	<b>4</b> Protection against splashing. Liquid splashed from any direction shall have no harmful effect.	<b>5</b> Protection against water jets. Water projected by a nozzle from any direction under stated conditions shall have no harmful effect.	<b>6</b> Protection against conditions on ship decks (deck equipment). Water from heavy seas shall not enter the enclosures under prescribed conditions.	<b>7</b> Protection against immersion in water. It shall not be possible for water to enter the enclosure under stated conditions of pressure and time.	<b>8</b> Protection against indefinite immersion in water under specified pressure. It shall not be possible for water to enter the enclosure.
---------------------------	---	---	--	--	---	---	--	---
